

Boston Regional Intelligence Center Policy and Procedure Guidelines

ISE-SAR Privacy, Civil Rights, and Civil Liberties Protection Policy

A. Purpose Statement

1. The purpose of the ISE-SAR Evaluation Environment Initiative (hereafter “EE Initiative”) Privacy, Civil Rights, and Civil Liberties Protection Policy (hereafter “Privacy and CR/CL Policy”) is to promote the Boston Regional Intelligence Center (hereafter “BRIC” or “submitting agency”), source agency, and user agency (hereafter collectively referred to as “participating agencies” or “participants”) conduct under the EE Initiative that complies with applicable federal, state, local, and tribal laws, regulations, and policies and assists participants in:
 - Ensuring individual privacy, civil rights, civil liberties, and other protected interests;
 - Increasing public safety and improving national security;
 - Protecting the integrity of systems for the observation and reporting of terrorism-related criminal activity and information;
 - Encouraging individuals or community groups to trust and cooperate with the justice system;
 - Promoting governmental legitimacy and accountability; and
 - Making the most effective use of public resources allocated to public safety agencies.

B. Policy Applicability and Legal Compliance

1. All participating BRIC personnel, including, but not limited to, personnel providing information technology services to the BRIC, private contractors, and other authorized participants will comply with applicable provisions of the BRIC’s Privacy and CR/CL Policy, as well as any relevant state and/or Federal laws, concerning personal information, including:
 - SAR information the source agency collects and the BRIC receives; and
 - The ISE-SAR information identified, submitted to the Shared Space, and accessed by or disclosed to BRIC personnel.
2. The BRIC will provide a printed copy of its Privacy and CR/CL Policy to all its personnel, nonagency personnel who provide services to the BRIC, and to each source agency and BRIC authorized user and will require both a written acknowledgement of receipt of this policy and a written agreement to comply with applicable provisions of this policy.
3. All BRIC personnel, participating agency personnel, personnel providing information technology services to the agency, private contractors, and other authorized users shall comply with applicable laws protecting privacy, civil rights, and civil liberties, including, but not limited to: the U.S. Constitution and state, local, and federal privacy, civil rights, civil liberties, and legal requirements applicable to the BRIC and/or other participating agencies. Such state statutes include, but are not limited to M.G.L. c. 4 §7, M.G.L. c. 6 §172, M.G.L. c. 12 §11H, M.G.L. c. 66 §10, and M.G.L. c. 66A §2.

C. Governance and Oversight

1. The Commander of the BRIC will have primary responsibility for: operating the BRIC, ISE-SAR information system operations, and coordinating personnel involved in the EE Initiative; the receiving, seeking, retention, evaluation, information quality, analysis, destruction, sharing or disclosure of SAR and ISE-SAR information; and enforcing the provisions of this policy.
2. The BRIC's participation in the EE Initiative will be guided by a trained Privacy Officer, who is appointed by the BRIC Commander, to assist in enforcing the provisions of this policy and who, in addition to other responsibilities, will receive reports regarding alleged errors and violations of the provisions of this policy.

D. Terms and Definitions

1. The primary terms and definitions used in this privacy policy are set forth in Appendix A, Terms and Definitions

E. Information

1. The BRIC will seek or retain information that a source agency (the BRIC or other agency) has determined constitutes "suspicious activity" and which:
 - Is based, on (a) a criminal predicate or (b) a possible threat to public safety, including potential terrorism-related conduct; and
 - Is relevant to the investigation and prosecution of suspected criminal (including terrorist) incidents; the resulting justice system response; or the prevention of crime; and
 - Based on a good faith believe, the source agency assures was acquired in accordance with agency policy and in a lawful manner.
2. Source agencies will agree not to collect and submit SAR information and the BRIC will not retain SAR or ISE-SAR information about any individual that was gathered solely on the basis of that individual's religious, political, or social views or activities; participation in a particular noncriminal organization or lawful event; or race, ethnicity, citizenship, place of origin, age, disability, gender, or sexual orientation.
3. Upon receipt of SAR information from a source agency that has processed the information in accordance with BRIC criteria (business processes), designated BRIC personnel will:
 - Personally review and vet the SAR information and provide the two-step assessment set forth in the ISE-SAR Functional Standard to determine whether the information qualifies as an ISE-SAR;
 - Enter the information following IEPD standards and code conventions to the extent feasible;
 - Provide appropriate labels as required under E.5 and E.6 below;
 - Submit (post) the ISE-SAR to the BRIC's shared space; and
 - Notify the source agency that the SAR has been identified as an ISE-SAR and submitted to the shared space.

4. The BRIC will ensure that certain basic and special descriptive information is entered and electronically associated with ISE-SAR information, including:
 - The name of the source agency;
 - The date the information was submitted;
 - The point-of-contact information for SAR-related data; and
 - Information that reflects any special laws, rules, or policies regarding access, use, and disclosure.

5. Information provided in the ISE-SAR shall indicate, to the maximum extent feasible and consistent with the Information Sharing Environment (ISE) Functional Standard for Suspicious Activity Reporting (SAR) Version 1.0 (ISE-FS-200):
 - The nature of the source: anonymous tip, confidential source, trained interviewer or investigator, written statement (victim, witness, other), private sector, or other source; and
 - Confidence, including:
 - The reliability of the source:
 - reliable – the source has been determined to be reliable;
 - unreliable – the reliability of the source is doubtful or has been determined to be unreliable;
 - unknown – the reliability of the source cannot be judged or has not as yet been assessed; and
 - The validity of the content:
 - confirmed – information has been corroborated by an investigator or other reliable source;
 - doubtful – the information is of questionable credibility but cannot be discounted;
 - cannot be judged – the information cannot be confirmed.
 - Due diligence will be exercised in determining source reliability and content validity. Information determined to be unfounded will be purged from the shared space.
 - Unless otherwise indicated by the source or submitting agency, source reliability is deemed to be “unknown” and content validity “cannot be judged.” In such case, users must independently confirm source reliability and content validity with the source or submitting agency or validate it through their own investigation.

6. At the time a decision is made to post ISE-SAR information to the shared space, BRIC personnel will ensure that the ISE-SAR information is labeled, to the maximum extent feasible and consistent with the ISE-SAR FS, to reflect any limitations on disclosure based on sensitivity of disclosure (dissemination description code), in order to:
 - Protect an individual’s right of privacy, civil rights, and civil liberties;
 - Protect confidential sources and police undercover techniques and methods;
 - Not interfere with or compromise pending criminal investigations; and
 - Provide any legally required protection based on an individual’s status as a child, sexual abuse victim, resident of a substance abuse treatment program, resident of a mental health treatment program, or resident of a domestic abuse shelter.

7. The BRIC will share ISE-SAR information with authorized non-fusion center agencies and individuals only in accordance with established BRIC policy and procedure.

8. The BRIC will ensure that ISE-SAR information in the shared space that is not verified (confirmed) will be subject to continuing assessment for confidence by subjecting it to an evaluation or screening process to confirm its credibility and value or categorize the information as unfounded or uncorroborated. If subsequent attempts to validate the information confirm its validity or are unsuccessful, the information in the shared space will be updated (replaced) to so indicate. Information determined to be unfounded will be purged from the shared space.
9. The BRIC will incorporate the gathering, processing, reporting, analyzing, and sharing of SAR and ISE-SAR information (SAR process) into existing processes and systems used to manage other crime-related information and criminal intelligence, thus leveraging existing policies and protocols utilized to protect the information, as well as the privacy, civil rights, and civil liberties of individuals.
10. Notice will be provided through data field labels or narrative information to enable authorized users to determine the nature of the protected information in the shared space and how to handle the information in accordance with applicable legal requirements, including any restrictions based on information security or classification.

F. Acquiring and Receiving Information

1. Information acquisition and investigative techniques used by source agencies must comply with and adhere to applicable law, regulations and guidelines, including, where applicable, U.S. and state constitutional provisions, applicable federal and state law provisions, local ordinances, and regulations.
2. The BRIC, its officers, agents, and employees will not be responsible for any and all liabilities, claims, losses, lawsuits, judgments, and/or expenses including attorney fees, arising, either directly or indirectly, from any act or failure to act by any participating agency that occur during or arise out of access to the data covered herein.
3. Law enforcement officers and other personnel at source agencies who acquire SAR information that may be shared with the BRIC will be trained to recognize behavior that is indicative of criminal activity related to terrorism.
4. When a choice of investigative techniques is available, information documented as a SAR or ISE-SAR should be acquired or investigated using the least intrusive feasible means, taking into account such factors as the effect on individuals' privacy and potential damage to reputation.
5. Access to and use of ISE-SAR information is governed by the U.S. Constitution, the state constitution, applicable federal and state laws and local ordinances, and PM-ISE policy guidance applicable to the ISE-SAR EE initiative.

G. Information Quality Assurance

1. The BRIC will ensure that source agencies assume primary responsibility for the quality and accuracy of the SAR data collected by the BRIC. The BRIC will advise the appropriate contact person in the source agency in writing (this would include electronic notification) if SAR

information received from the source agency is alleged, suspected, or found to be erroneous or deficient.

2. The BRIC will make every reasonable effort to ensure that SAR information collected and ISE-SAR information retained and posted to the shared space is derived from dependable and trustworthy source agencies and is as accurate, current, and complete as possible.
3. At the time of posting to the shared space, ISE-SAR information will be labeled according to the level of confidence in the information (source reliability and content validity) to the maximum extent feasible.
4. The labeling of ISE-SAR information will be periodically evaluated and updated in the shared space when new information is acquired that has an impact on confidence in the information.
5. Alleged errors or deficiencies (misleading, obsolete, or otherwise unreliable) in ISE-SAR information will be investigated in a timely manner and any needed corrections to or deletions made to such information in the shared space.
6. ISE-SAR information will be removed from the shared space if it is determined the source agency did not have authority to acquire the original SAR information, used prohibited means to acquire it, or did not have authority to provide it to the BRIC or if the information is subject to an expungement order in a state or federal court that is enforceable under state law or policy.
7. The BRIC will provide written notice (this would include electronic notification) to the source agency that provided the SAR, and to any user agency that has accessed the ISE-SAR information posted to the shared space, when ISE-SAR information posted to the shared space by the BRIC is corrected or removed from the shared space by the BRIC because it is erroneous or deficient such that the rights of an individual may be affected.

H. Analysis

1. ISE-SAR Information posted by the BRIC to the shared space or accessed from the shared spaces under the EE Initiative will be analyzed for intelligence purposes only by qualified BRIC personnel who have successfully completed a background check and any applicable security clearance and have been selected, approved, and trained accordingly (including training on the implementation of this policy). These personnel shall share ISE-SAR information only through authorized analytical products.
2. ISE-SAR information is analyzed according to priorities and needs, including analysis to:
 - Further terrorism prevention, investigation, force deployment, or prosecution objectives and priorities established by the BRIC, and
 - Provide tactical and/or strategic intelligence on the existence, identification, and capability of individuals and organizations suspected of having engaged in or engaging in terrorism-related activities.

I. Sharing and Disclosure

1. Credentialed, role-based access criteria will be used, as appropriate, to determine which system users will be authorized to view privacy fields in ISE-SAR information in response to queries made through a federated ISE-SAR search.
2. Unless an exception is expressly approved by the PM-ISE, the BRIC will adhere to the Functional Standard for the ISE-SAR process, including the use of the ISE-SAR IEPD reporting format, EE Initiative approved data collection codes, and ISE-SAR information sharing and disclosure business rules.
3. ISE-SAR information retained by the BRIC and entered into the BRIC's shared space will be accessed by or disseminated only to persons within the BRIC or, as expressly approved by PM-ISE, users who are authorized to have access and need the information for specific purposes authorized by law. Access and disclosure of personal information will only be allowed to agencies and individual users for legitimate law enforcement and public protection purposes and only for the performance of official duties in accordance with law.
4. ISE-SAR information posted to the shared space by the BRIC may be disclosed to a member of the public only if the information is defined by law to be a public record or otherwise appropriate for release to further the BRIC mission and is not exempt from disclosure by law, pursuant to M.G.L. c. 4 §7 and/or M.G.L. c. 66 §10. Such information may be disclosed only in accordance with the law and procedures applicable to the BRIC for this type of information.
5. ISE-SAR information will not be provided to the public if, pursuant to applicable law, including but not limited to M.G.L. c. 4 §7 and M.G.L. c. 66 §10, it is:
 - Required to be kept confidential or exempt from disclosure;
 - Classified as investigatory records and exempt from disclosure;
 - Protected federal, state, or tribal records originated and controlled by the source agency that cannot be shared without permission;
 - Not deemed a public record; or
 - A violation of an authorized nondisclosure agreement.
6. The BRIC will not confirm the existence or nonexistence of ISE-SAR information to any person, organization, or other entity not otherwise entitled to receive the information.

J. Disclosure and Correction/Redress

1. Upon satisfactory verification (fingerprints, driver's license, or other specified identifying documentation) of his or her identity and subject to the conditions specified in paragraph 2, below, an individual who is entitled to know the existence of and to review the information about him or her that has been gathered and retained by the BRIC or a source agency participating in the EE Initiative may obtain a copy of the information for the purpose of challenging the accuracy or completeness of the information. Any such request must be made in writing. The BRIC's response to the request for information will be made within a reasonable time and in a form that is readily intelligible to the individual. A record will be kept of all requests and of what information is disclosed to an individual.

2. The existence, content, and source of the information will not be made available to an individual when:
 - Disclosure would interfere with, compromise, or delay an ongoing investigation or prosecution;
 - Disclosure would endanger the health or safety of an individual, organization, or community;
 - Disclosure is not allowed by state and/or Federal law;
 - The BRIC or user agency did not originate, or does not otherwise have a right to disclose, the information; or
 - Such production would violate state and/or federal law, including, but not limited to, M.G.L. c. 4 §7 and M.G.L. c. 66 §10.
3. The individual to whom information has been disclosed will be given reasons if requests for correction(s) are denied by the BRIC or the source agency. The individual will also be informed of the procedure for appeal when the BRIC or source agency has declined to correct challenged information to the satisfaction of the individual to whom the information relates.
4. If an individual has complaints or objections to the accuracy or completeness of ISE-SAR information about him or her that is alleged to be held by the BRIC, the BRIC, as appropriate, will inform the individual of the procedure for submitting complaints or requesting corrections. A record will be kept of all complaints and requests for corrections and the resulting action, if any.
5. The BRIC will acknowledge the complaint and state that it will be reviewed but will not confirm the existence of any ISE-SAR that contains information in privacy fields that identifies the individual. However, any personal information will be reviewed and corrected in or deleted from the ISE-SAR shared space if the information is determined to be erroneous, includes incorrectly merged information, or is out of date.

K. Security Safeguards

1. The BRIC will designate and train a BRIC employee to serve as the BRIC's security officer for the EE Initiative.
2. The BRIC will operate in a secure facility protected from external intrusion. The BRIC will utilize secure internal and external safeguards against network intrusions of ISE-SAR information. Access to the BRIC's ISE-SAR shared space from outside the facility will be allowed only over secure networks.
3. The BRIC will secure ISE-SAR information in the BRIC's shared space in a manner such that it cannot be added to, modified, accessed, destroyed, or purged except by BRIC personnel authorized to take such actions.
4. Access to ISE-SAR information will be granted only to BRIC personnel, whose positions and job duties require such access; who have successfully completed a background check and any applicable security clearance and who have been selected, approved, and trained accordingly.
5. The BRIC will, in the event of a data security breach, consider notifying an individual about whom personal information was or is reasonably believed to have been compromised or obtained by an unauthorized person and access to which threatens physical, reputational, or financial harm to the person. Any notice will be made promptly and without unreasonable delay following discovery or

notification of the access to the information, consistent with the legitimate needs of law enforcement to investigate the breach or any measures necessary to determine the scope of the breach and, if necessary, to restore the integrity of the system.

L. Information Retention and Destruction

1. The BRIC will ensure that all ISE-SAR information is reviewed for record retention (validation or purge) in accordance with the time period(s) specified by state law, local ordinance, or BRIC policy, as applicable. Pursuant to 28 C.F.R. 23, information will not be retained for a period of more than (5) years.
2. The BRIC will retain ISE-SAR information in the shared space for a sufficient period of time, and no longer than one hundred and eighty (180) days, to permit the information to be validated or refuted, its credibility and value to be reassessed, and a “disposition” label (for example, undetermined or unresolved, cleared or unfounded, or under active investigation) assigned so that a subsequent authorized user knows the status and purpose for the retention and will retain the information based on any retention period associated with the disposition label.
3. When ISE-SAR information has no further value or meets the BRIC’s criteria for purge according to applicable law or policy, privacy field information will be purged.
4. State law does not require notification prior to purging any ISE-SAR information.

M. Transparency, Accountability, and Enforcement

M.1. Information System Transparency

1. The BRIC will be open with the public in regard to SAR collection and ISE-SAR information policies and practices shall be available upon request.
2. The BRIC’s Privacy Officer will be responsible for receiving and responding to inquiries and complaints about privacy, civil rights, and civil liberties protections relating to ISE-SAR information.

M.2. Accountability

1. The audit log of queries for ISE-SAR information will identify the user initiating the query.
2. The BRIC will have access to an audit trail of inquiries to and information disseminated from the shared spaces.
3. The BRIC will adopt and follow procedures and practices to evaluate the compliance of its authorized users with ISE-SAR information policy and applicable law. This will include periodic and random audits of logged access to the shared spaces in accordance with EE Initiative policy. A record of the audits will be maintained by the BRIC Commander.
4. BRIC personnel and source agencies shall report violations or suspected violations of the BRIC’s ISE-SAR EE Initiative privacy policy to the BRIC’s Privacy Officer.

5. The BRIC will conduct periodic audit and inspection of the information contained in its ISE-SAR shared space. The audit will be conducted by BRIC staff or an independent auditor, as provided by EE Initiative policy. This audit will be conducted in such a manner as to protect the confidentiality, sensitivity, and privacy of the ISE-SAR information maintained by the BRIC in the shared space and any related documentation.
6. The BRIC's Privacy Officer or other expert individual or group designated by the BRIC will periodically review the BRIC's EE Initiative Privacy Policy and the BRIC will make appropriate changes in response to changes in applicable law.

M.3. Enforcement

1. The BRIC reserves the right to restrict the qualifications and number of user agencies and authorized user agency personnel that it certifies for access to ISE-SAR information and to suspend or withhold service to any of its user agencies or authorized user agency personnel violating this privacy policy. The BRIC further reserves the right to deny access or participation in the EE Initiative to its participating agencies (source or user) that fail to comply with the applicable restrictions and limitations of the BRIC's privacy policy.

N. Training

1. The following individuals will participate in training programs regarding implementation of and adherence to this privacy, civil rights, and civil liberties policy:
 - All assigned personnel of the BRIC;
 - Personnel providing information technology services to the BRIC;
 - Staff in other public agencies or private contractors, as appropriate, providing SAR and ISE-SAR information technology or related services to the BRIC;
 - Source agency personnel providing organizational processing services for SAR information submitted to the BRIC; and
 - User agency personnel and individuals authorized to access ISE-SAR information who are not employed by the BRIC or a contractor.
2. The BRIC's privacy policy training program will cover:
 - Purposes of the EE Initiative Privacy Policy;
 - Substance and intent of the provisions of the Policy relating to collection, use, analysis, retention, destruction, sharing, and disclosure of SAR and ISE-SAR information maintained or submitted by the BRIC to the shared space;
 - How to implement the Policy in the day-to-day work of a participating agency; •Mechanisms
 - The impact of improper activities associated with violations of the Policy; for reporting violations of the Policy; and
 - The possible penalties for policy violations, including transfer, dismissal, and criminal liability, if any.
 - Any other topics deemed necessary by the Privacy Officer and/or the BRIC Commander.

Appendix A - Terms and Definitions

The following is a list of primary terms and definitions used throughout this policy.

Access—Data access is being able to get to (usually having permission to use) particular data on a computer. Web access means having a connection to the World Wide Web through an access provider or an online service provider. Data access is usually specified as read-only and read/write access.

With regard to the ISE, access refers to the business rules, means, and processes by and through which ISE participants obtain terrorism-related information, to include homeland security information, terrorism information, and law enforcement information acquired in the first instance by another ISE participant.

Acquisition—refers to the means by which an ISE participant obtains information through the exercise of its authorities, for example, through human intelligence collection or from a foreign partner. For the purposes of this definition, acquisition does not refer either to the obtaining of information widely available to other ISE participants through, for example, news reports, or to the obtaining of information shared with them by another ISE participant who originally acquired the information.

Audit Trail—Audit trail is a generic term for recording (logging) a sequence of activities. In computer and network contexts, an audit trail tracks the sequence of activities on a system, such as user log-ins and log-outs. More expansive audit trail mechanisms would record each user's activity in detail—what commands were issued to the system, what records and files were accessed or modified, etc.

Audit trails are a fundamental part of computer security, used to trace (usually retrospectively) unauthorized users and uses. They can also be used to assist with information recovery in the event of a system failure.

Center—Center refers to the Boston Regional Intelligence Center (BRIC).

Civil Rights—The term “civil rights” refers to governments' role in ensuring that all citizens have equal protection under the law and equal opportunity to exercise the privileges of citizenship regardless of race, religion, gender, or other characteristics unrelated to the worth of the individual. Civil rights are, therefore, obligations imposed on government to promote equality. More specifically, they are the rights to personal liberty guaranteed to all United States citizens by the Thirteenth and Fourteenth Amendments and by acts of Congress.

Civil Liberties—Civil liberties are fundamental individual rights, such as freedom of speech, press, or religion; due process of law; and other limitations on the power of the government to restrain or dictate the actions of individuals. They are the freedoms that are guaranteed by the Bill of Rights, the first ten Amendments to the Constitution of the United States. Civil liberties offer protection to individuals from improper government action and arbitrary governmental interference. Generally, the term “civil rights” involves positive (or affirmative) government action, while the term “civil liberties” involves restrictions on government.

Confidentiality—Confidentiality refers to the obligations of individuals and institutions to use information under their control appropriately once it has been disclosed to them. One observes rules of confidentiality out of respect for and to protect and preserve the privacy of others. See Privacy.

Data—Elements of information.

Disclosure—The release, transfer, provision of access to, sharing, publication, or divulging of personal information in any manner—electronic, verbal, or in writing—to an individual, agency, or organization outside the agency that collected it. Disclosure is an aspect of privacy, focusing on information which may be available only to certain people for certain purposes but which is not available to everyone.

Urban Area Fusion Center— A collaborative effort of two or more agencies that provide resources, expertise, and information to a designated government agency or agency component with the goal of maximizing their ability to detect, prevent, investigate, and respond to criminal and terrorist activity

Homeland Security Information—As defined in Section 892(f)(1) of the Homeland Security Act of 2002 and codified at 6 U.S.C. § 482(f)(1), homeland security information means any information possessed by a federal, state, or local agency that (a) relates to a threat of terrorist activity; (b) relates to the ability to prevent, interdict, or disrupt terrorist activity; (c) would improve the identification or investigation of a suspected terrorist or terrorist organization; or (d) would improve the response to a terrorist act.

Information—Information includes any data about people, organizations, events, incidents, or objects, regardless of the medium in which it exists. Information received by law enforcement agencies can be categorized into four general areas: general data, tips and leads data, suspicious activity reports, and criminal intelligence information.

Information Quality—Information quality refers to various aspects of the information; the accuracy and validity of the actual values of the data, data structure, and database/data repository design. Traditionally, the basic elements of information quality have been identified as accuracy, completeness, currency, reliability, and context/meaning. Today, information quality is being more fully described in multidimensional models, expanding conventional views of the topic to include considerations of accessibility, security, and privacy.

ISE-SAR—A suspicious activity report (SAR) that has been determined, pursuant to a two-part process, to have a potential terrorism nexus. ISE-SAR business rules will serve as a unifying process to support the reporting, tracking, processing, storage, and retrieval of terrorism-related suspicious activity reports across the ISE.

ISE-SAR Information Exchange Package Documentation (IEPD) —A schema that facilitates the posting and sharing of ISE-SAR information. The ISE-SAR IEPD is used to represent ISE information in two different data formats:

- (1) The **Detailed format** includes information contained in all data elements set forth in Section IV of the ISE-SAR FS (“ISE-SAR Exchange Data Model”), including fields denoted as privacy fields.

- (2) The **Summary format** excludes certain privacy fields as identified in the ISE-SAR FS. The ISE-SAR FS identifies the minimum privacy fields that must be excluded. Each ISE participant may exclude additional privacy fields from its Summary ISE-SARs, in accordance with applicable legal requirements.

Law—As used by this policy, law includes any local, state, or federal statute, ordinance, regulation, executive order, policy, or court rule, decision, or order as construed by appropriate local, state, or federal officials or agencies.

Law Enforcement Information—For purposes of the ISE, law enforcement information means any information obtained by or of interest to a law enforcement agency or official that is both (a) related to terrorism or the security of our homeland and (b) relevant to a law enforcement mission, including but not limited to information pertaining to an actual or potential criminal, civil, or administrative investigation or a foreign intelligence, counterintelligence, or counterterrorism investigation; assessment of or response to criminal threats and vulnerabilities; the existence, organization, capabilities, plans, intentions, vulnerabilities, means, methods, or activities of individuals or groups involved or suspected of involvement in criminal or unlawful conduct or assisting or associated with criminal or unlawful conduct; the existence, identification, detection, prevention, interdiction, or disruption of or response to criminal acts and violations of the law; identification, apprehension, prosecution, release, detention, adjudication, supervision, or rehabilitation of accused persons or criminal offenders; and victim/witness assistance.

Logs—Logs are a necessary part of an adequate security system because they are needed to ensure that data is properly tracked and that only authorized individuals are getting access to the system and the data. See Audit Trail.

Participating Agencies—Participating agencies, for purposes of the EE Initiative, include source [the agency or entity that originates SAR (and, when authorized, ISE-SAR) information], submitting (which is the agency or entity posting ISE-SAR information to the shared space), and user (which is an agency or entity authorized by the submitting agency or other authorized agency or entity, to access ISE-SAR information, including information in the shared space(s), and which may include analytical or operational component(s) of the submitting or authorizing agency or entity) agencies, in support of their responsibility to collect, document, process, access, or use SAR and ISE-SAR information.

Personal Information—Information which can be used, either alone or in combination with other information, to identify individual subjects suspected of engaging in an activity or incident potentially related to terrorism.

Privacy—Privacy refers to individuals' interests in preventing the inappropriate collection, use, and release of personal information. Privacy interests include privacy of personal behavior, privacy of personal communications, and privacy of personal data. Other definitions of privacy include the right to be physically left alone (solitude); to be free from physical interference, threat, or unwanted touching (assault, battery); or to avoid being seen or overheard in particular contexts.

Privacy fields—Data fields in ISE-SAR IEPD's that contain personal information.

Privacy Policy—A privacy policy is a written, published statement that articulates the policy position of an organization on how it handles the personal information that it gathers and uses in the normal course of business. The policy should include information relating to the processes of information collection, analysis, maintenance, disclosure, and access. The purpose of the privacy policy is to articulate that the center will adhere to those legal requirements and center policy determinations that enable gathering and sharing of information to occur in a manner that protects personal privacy interests. A well-developed and implemented privacy policy uses justice entity resources wisely and effectively; protects the agency, the individual, and the public; and promotes public trust.

Privacy Protection—This is a process of maximizing the protection of privacy, civil rights, and civil liberties when collecting and sharing information in the process of protecting public safety and public health.

Protected Information—For the non-intelligence community, protected information is information about United States citizens and lawful permanent residents that is subject to information privacy or other legal protections under the Constitution and laws of the United States. For state, local, and tribal governments, the protections derived from applicable state and tribal constitutions and state, local, and tribal laws, ordinances, and codes. For the (federal) intelligence community, protected information includes information about “United States persons” as defined in Executive Order 12333. Protected information may also include other information that the U.S. government expressly determines by Executive Order, international agreement, or other similar instrument should be covered.

Public—Public includes:

- Any person and any for-profit or non-profit entity, organization, or association;
- Any governmental entity for which there is no existing specific law authorizing access to the agency’s/center’s information;
- Media organizations; and
- Entities that seek, receive, or disseminate information for whatever reason, regardless of whether it is done with the intent of making a profit, and without distinction as to the nature or intent of those requesting information from the agency.

Public does not include:

- Employees of the agency;
- People or entities, private or governmental, who assist the agency/center in the operation of the justice information system; and
- Public agencies whose authority to access information gathered and retained by the agency/center is specified in law.

Record—Any item, collection, or grouping of information that includes personally identifiable information and is maintained, collected, used, or disseminated by or for the collecting agency or organization.

Retention—See Storage.

Role-Based Access—A type of access that uses roles to determine rights and privileges. A role is a symbolic category of users that share the same security privilege.

Security—Security refers to the range of administrative, technical, and physical business practices and mechanisms that aim to preserve privacy and confidentiality by restricting information access to authorized users for authorized purposes. Computer and communications security efforts also have the goal of ensuring the accuracy and timely availability of data for the legitimate user set, as well as promoting failure resistance in the electronic systems overall.

Shared Space—A networked data and information repository that is under the control of submitting agencies and which provides terrorism-related information, applications, and services to other ISE participants.

Sharing—refers to the act of one ISE participant disseminating or giving homeland security information, terrorism information, or law enforcement information to another ISE participant.

Source Agency—Source agency refers to the agency or entity that originates SAR (and, when authorized, ISE-SAR) information.

Storage—In a computer, storage is the place where data is held in an electromagnetic or optical form for access by a computer processor. There are two general usages:

1. Storage is frequently used to mean the devices and data connected to the computer through input/output operations—that is, hard disk and tape systems and other forms of storage that do not include computer memory and other in-computer storage. This meaning is probably more common in the IT industry than meaning 2.
2. In a more formal usage, storage has been divided into (1) primary storage, which holds data in memory (sometimes called random access memory or RAM) and other “built-in” devices such as the processor’s L1 cache, and (2) secondary storage, which holds data on hard disks, tapes, and other devices requiring input/output operations.

Primary storage is much faster to access than secondary storage because of the proximity of the storage to the processor or because of the nature of the storage devices. On the other hand, secondary storage can hold much more data than primary storage.

With regard to the ISE, storage (or retention) refers to the storage and safeguarding of terrorism-related information, to include homeland security information, terrorism information, and law enforcement information relating to terrorism or the security of our homeland by both the originator of the information and any recipient of the information.

Submitting Agency—Submitting agency refers to the agency or entity providing ISE-SAR information to the shared space)

Suspicious Activity—Suspicious activity is defined as “reported or observed activity and/or behavior that, based on an officer's training and experience, is believed to be indicative of intelligence gathering or preoperational planning related to terrorism, criminal, or other illicit (illegal) intention.” Examples of suspicious activity include surveillance, photography of facilities, site breach or physical intrusion, cyber attacks, testing of security, etc.

Suspicious Activity Reports (SARs)—Record the observation and documentation of a suspicious activity. Suspicious activity reports (SARs) are meant to offer a standardized means for feeding information repositories. Any patterns identified during SAR review and analysis may be investigated in coordination with the reporting agency and, if applicable, the state-designated fusion center. Suspicious activity reports are not intended to be used to track or record ongoing enforcement, intelligence, or investigatory activities, nor are they designed to support interagency calls for service.

Terrorism Information—Consistent with Section 1016(a)(4) of IRTPA, all information relating to (a) the existence, organization, capabilities, plans, intentions, vulnerabilities, means of finance or materials support, or activities of foreign or international terrorist groups or individuals or of domestic groups or individuals involved in transnational terrorism, (b) threats posed by such groups or individuals to the United States, United States persons, or United States interests or to those interests of other nations, (c) communications of or by such groups or individuals, or (d) other groups or individuals reasonably believed to be assisting or associated with such groups or individuals.

Terrorism-Related Information—In accordance with IRTPA, as recently amended by the 9/11 Commission Act enacted on August 3, 2007 (P.L. 110-53), the ISE facilitates the sharing of terrorism and homeland security information, as defined in IRTPA Section 1016(a)(5) and the Homeland Security Act 892(f)(1) (6 U.S.C. § 482(f)(1)). See also Information Sharing Environment Implementation Plan (November 2006) and Presidential Guidelines 2 and 3 (the ISE will facilitate the sharing of “terrorism information,” as defined in IRTPA, as well as the following categories of information to the extent that they do not otherwise constitute “terrorism information” (1) homeland security information as defined in Section 892(f)(1) of the Homeland Security Act of 2002 (6 U.S.C. § 482(f)(1)); and (2) law enforcement information relating to terrorism or the security of our homeland). Such additional information includes intelligence information.

Weapons of Mass Destruction (WMD) information as a fourth (third statutory) category of ISE information is not called for in P.L. 110-53. Rather, it amends the definition of terrorism information to include WMD information and then defines that term. WMD information probably should not technically be cited or referenced as a fourth category of information in the ISE.

Tips and Leads Information or Data—Uncorroborated report or information generated from inside or outside the agency that alleges or indicates some form of possible criminal activity. Tips and leads can also be referred to as suspicious incident reports (SIRs), suspicious activity reports (SARs), and/or field interview reports (FIRs). Tips and leads information does not include incidents that do not have an offense attached, criminal history records, or Computer Aided Dispatch (CAD) data.

A tip or lead can come from a variety of sources, including, but not limited to, the public, field interview reports, and anonymous or confidential sources. This information has some suspicion or mere suspicion attached to it, but without further inquiry or analysis, it is unknown whether the information is accurate or useful. Tips and leads information falls between being of no use to law enforcement and being extremely valuable depending on whether time and resources are available to determine its meaning.

Tips and leads information is maintained in a secure system, similar to data that rises to the level of reasonable suspicion.

User Agency—User agency refers to the agency or entity authorized by the submitting agency, or other authorized agency or entity, to access ISE-SAR information in the shared space(s), and which may include analytical or operational component(s) of the submitting or authorizing agency or entity.

§ 2. Holders maintaining personal data system; duties

Every holder maintaining personal data shall:--

- (a) identify one individual immediately responsible for the personal data system who shall insure that the requirements of this chapter for preventing access to or dissemination of personal data are followed;
- (b) inform each of its employees having any responsibility or function in the design, development, operation, or maintenance of the personal data system, or the use of any personal data contained therein, of each safeguard required by this chapter, of each rule and regulation promulgated pursuant to [section three](#) which pertains to the operation of the personal data system, and of the civil remedies described in [section three B](#) of chapter two hundred and fourteen available to individuals whose rights under chapter sixty-six A are allegedly violated;
- (c) not allow any other agency or individual not employed by the holder to have access to personal data unless such access is authorized by statute or regulations which are consistent with the purposes of this chapter or is approved by the data subject whose personal data are sought if the data subject is entitled to access under clause
 - (i). Medical or psychiatric data may be made available to a physician treating a data subject upon the request of said physician, if a medical or psychiatric emergency arises which precludes the data subject's giving approval for the release of such data, but the data subject shall be given notice of such access upon termination of the emergency. A holder shall provide lists of names and addresses of applicants for professional licenses and lists

of professional licensees to associations or educational organizations recognized by the appropriate professional licensing or examination board. A holder shall comply with a data subject's request to disseminate his data to a third person if practicable and upon payment, if necessary, of a reasonable fee; provided, however, that nothing in this section shall be construed to prohibit disclosure to or access by the bureau of special investigations to the records or files of the department of transitional assistance for the purposes of fraud detection and control;

(d) take reasonable precautions to protect personal data from dangers of fire, identity theft, theft, flood, natural disaster, or other physical threat;

(e) comply with the notice requirements set forth in [section sixty-three of chapter thirty](#);

(f) in the case of data held in automated personal data systems, and to the extent feasible with data held in manu-

al personal data systems, maintain a complete and accurate record of every access to and every use of any personal data by persons or organizations outside of or other than the holder of the data, including the identity of all such persons and organizations which have gained access to the personal data and their intended use of such data and the holder need not record any such access of its employees acting within their official duties;

(g) to the extent that such material is maintained pursuant to this section, make available to a data subject upon his request in a form comprehensible to him, a list of the uses made of his personal data, including the identity of all persons and organizations which have gained access to the data;

(h) maintain personal data with such accuracy, completeness, timeliness, pertinence and relevance as is necessary to assure fair determination of a data subject's qualifications, character, rights, opportunities, or benefits when such determinations are based upon such data;

(i) inform in writing an individual, upon his request, whether he is a data subject, and if so, make such data fully available to him or his authorized representative, upon his request, in a form comprehensible to him, unless doing so is prohibited by this clause or any other statute. A holder may withhold from a data subject for the period hereinafter set forth, information which is currently the subject of an investigation and the disclosure of which would probably so prejudice the possibility of effective law enforcement that such disclosure would not be in the public interest, but this sentence is not intended in any way to derogate from any right or power of access the data subject might have under administrative or judicial discovery procedures. Such information may be withheld for the time it takes for the holder to complete its investigation and commence an administrative or judicial proceeding on its basis, or one year from the commencement of the investigation or whichever occurs first. In making any disclosure of information to a data subject pursuant to this chapter the holder may remove personal identifiers relating to a third person, except where such third person is an officer or employee of government acting as such and the data subject is not. No holder shall rely on any exception contained in clause Twentysixth of [section seven of chapter four](#) to withhold from any data subject personal data otherwise accessible to him under this chapter;

(j) establish procedures that (1) allow each data subject or his duly authorized representative to contest the accuracy, completeness, pertinence, timeliness, relevance or dissemination of his personal data or the denial of access to such data maintained in the personal data system and (2) permit personal data to be corrected or amended when the data subject or his duly authorized representative so requests and there is no disagreement concerning the change to be made or, when there is disagreement with the data subject as to whether a change should be made, assure that the data subject's claim is noted and included as part of the data subject's personal data and included in any subsequent disclosure or dissemination of the disputed data;

(k) maintain procedures to ensure that no personal data are made available in response to a demand for data made by means of compulsory legal process, unless the data subject has been notified of such demand in reasonable time that he may seek to have the process quashed;

(l) not collect or maintain more personal data than are reasonably necessary for the performance of the holder's statutory functions.

(5) Each appropriate Federal agency, as determined by the President, shall have access to each information sharing system through which information is shared under paragraph (1), and shall therefore have access to all information, as appropriate, shared under such paragraph.

[Chapter 6](#). The Governor, Lieutenant Governor and Council, Certain Officers Under the Governor and Council, and State Library ([Refs & Annos](#))

§ 172. Dissemination of record information; certification; eligibility for access; scope of inquiry; listing; access limited; rules; use of information

Except as otherwise provided in this section and [sections one hundred and seventy-three to one hundred and seventy-five](#), inclusive, criminal offender record information, and where present, evaluative information, shall be disseminated, whether directly or through any intermediary, only to (a) criminal justice agencies; (b) such other agencies and individuals required to have access to such information by statute including United States Armed Forces recruiting offices for the purpose of determining whether a person enlisting has been convicted of a felony as set forth in [Title 10, section 504 of the United States Code](#); to the active or organized militia of the commonwealth for the purpose of determining whether a person enlisting has been convicted of a felony, and (c) any other agencies and individuals where it has been determined that the public interest in disseminating such information to these parties clearly outweighs the interest in security and privacy. The extent of such access shall be limited to that necessary for the actual performance of the criminal justice duties of criminal justice agencies under clause (a); to that necessary for the actual performance of the statutory duties of agencies and individuals granted access under clause (b); and to that necessary for the actual performance of the actions or duties sustaining the public interest as to agencies or individuals granted access under clause (c). Agencies or individuals granted access under clause (c) shall be eligible to receive criminal offender record information obtained through interstate systems if the board determines that such information is necessary for the performance of the actions or duties sustaining the public interest with respect to such agencies or individuals.

The board shall certify those agencies and individuals requesting access to criminal offender record information that qualify for such access under clauses (a) or (b) of this section, and shall specify for each such agency or individual certified, the extent of its access. The board shall make a finding in writing of eligibility, or noneligibility of each such agency or individual which requests such access. No such information shall be disseminated to any agency or individual prior to the board's determination of eligibility, or, in cases in which the board's decision is appealed, prior to the final judgment of a court of competent jurisdiction that such agency or individual is so eligible.

No agency or individual shall have access to criminal offender record information under clause (c), unless the board, by a two-thirds majority of the members present and voting, determines and certifies that the public interest in disseminating such information to such party clearly outweighs the interest in security and privacy. The extent of access to such information under clause (c) shall also be determined by such a two-thirds majority vote of the board. Certification for access under clause (c) may be either access to information relating to a specific

identifiable individual, or individuals, on a single occasion; or a general grant of access for a specified period of time not to exceed two years. A general grant of access need not relate to a request for access by the party or parties to be certified. Except as otherwise provided in this paragraph the procedure and requirements for certifying

agencies and individuals under clause (c) shall be according to the provisions of the preceding paragraphs of this section.

Each agency holding or receiving criminal offender record information shall maintain, for such period as the board shall determine, a listing of the agencies or individuals to which it has released or communicated such information. Such listings, or reasonable samples thereof, may from time to time, be reviewed by the board or the council to determine whether any statutory provisions or regulations have been violated.

Dissemination of criminal offender record information shall, except as provided in this section and for purposes of research programs approved under [section one hundred and seventy-four](#), be permitted only if the inquiry is based upon name, fingerprints, or other personal identifying characteristics. The board shall adopt rules to prevent dissemination of such information where inquiries are based upon categories of offense or data elements other than said characteristics; provided, however, that access by criminal justice agencies to criminal offender record information on the basis of data elements other than personal identifying characteristics, including but not limited to, categories of offense, mode of operation, photographs and physical descriptive data generally, shall be permissible, except as may be limited by the regulations of the board. Except as authorized by this chapter it shall be unlawful to request or require a person to provide a copy of his criminal offender record information. At the time of making any criminal record inquiry pursuant to clause (b) or (c) of the first paragraph of this section, the party certified to receive criminal offender record information shall submit to the board an acknowledgement that such inquiry will be undertaken, signed by the person who is the subject of such inquiry on a form prepared or approved by the board.

Notwithstanding any other provisions of this section, the following information shall be available to any person upon request: (a) criminal offender record information consisting of conviction data; provided, however, that all requests for such conviction data shall be made to the board; and provided, further, that the board shall disclose only conviction data which it maintains in a standardized format in its automated criminal history file, and (b) information indicating custody status and placement within the correction system; provided, however, that no information shall be disclosed that identifies family members, friends, medical or psychological history, or any other personal information unless such information is directly relevant to such release or custody placement decision, and no information shall be provided if its release would violate any other provisions of state or federal law. The parole board, except as required by [section one hundred and thirty of chapter one hundred and twentyseven](#), the department of correction, a county correctional authority, or a probation department with the approval of a justice to the appropriate division of the trial court, may, in its discretion, make available a summary, which may include references to evaluative information, concerning a decision to release an individual on a permanent or temporary basis, to deny such release, or to change his custody status.

Information shall be provided or made available pursuant to the preceding paragraph only if the individual named in the request or summary has been convicted of a crime punishable by imprisonment for a term of five years or more, or has been convicted of any crime and sentenced to any term of imprisonment, and at the time of the request: is serving a sentence of probation or incarceration, or is under the custody of the parole board; or M.G.L.A. 6 § 172 Page 2

In addition to the provisions of the preceding sentence, court records for all criminal cases shall be made available for public inspection for a period of one week following conviction and imposition of sentence.

Any individual or agency, public or private, that receives or obtains criminal offender record information, in violation of the provisions of this statute, whether directly or through any intermediary, shall not collect, store, disseminate, or use such criminal offender record information in any manner or for any purpose. Notwithstanding the provisions of this section, the dissemination of information relative to a person's conviction of automobile law violations as defined by [section one of chapter ninety C](#), or information relative to a person's charge of operating a motor vehicle while under the influence of intoxicating liquor which resulted in his assignment to a driver alcohol program as described in [section twenty-four D of chapter ninety](#), shall not be prohibited where such dissemination is made, directly or indirectly, by the motor vehicle insurance merit rating board established pursuant to [section one hundred and eighty-three of chapter six](#), to an insurance company doing motor vehicle insurance business within the commonwealth, or to such insurance company's agents, independent contractors or insurance policyholders to be used exclusively for motor vehicle insurance purposes. Notwithstanding the provisions of this section or chapter sixty-six A, the following shall be public records: (1) police daily logs, arrest registers, or other similar records compiled chronologically, provided that no alphabetical arrestee, suspect, or similar index is available to the public, directly or indirectly; (2) chronologically maintained court records of public judicial proceedings, provided that no alphabetical or similar index of criminal defendants is available to the public, directly or indirectly; (3) published records of public court or administrative proceedings, and of public judicial administrative or legislative proceedings; and (4) decisions of the parole board as provided in [section one hundred and thirty of chapter one hundred and twenty-seven](#).

Every person for whom a search of public records is made shall, at the direction of the person having custody of such records, pay the actual expense of such search. The following fees shall apply to any public record in the custody of the state police, the Massachusetts bay transportation authority police or any municipal police department or fire department: for preparing and mailing a motor vehicle accident report, five dollars for not more than six pages and fifty cents for each additional page; for preparing and mailing a fire insurance report, five dollars for not more than six pages plus fifty cents for each additional page; for preparing and mailing crime, incident or miscellaneous reports, one dollar per page; for furnishing any public record, in hand, to a person requesting such records, fifty cents per page. If the custodian refuses or fails to comply with such a request, the person making the request may petition the supervisor of records for a determination whether the record requested is public. Upon the determination by the supervisor of records that the record is public, he shall order the custodian of the public record to comply with the person's request. If the custodian refuses or fails to comply with any such order, the supervisor of records may notify the attorney general or the appropriate district attorney thereof who may take whatever measures he deems necessary to insure compliance with the provisions of this section. The administrative remedy provided by this section shall in no way limit the availability of the administrative remedies provided by the commissioner of administration and finance with respect to any officer or employee of any agency, executive office, department or board; nor shall the administrative remedy provided by this section in any way limit the availability of judicial remedies otherwise available to any person requesting a public record. If a custodian of a public record refuses or fails to comply with the request of any person for inspection or copy of a public record or with an administrative order under this section, the supreme judicial or superior court shall

have jurisdiction to order compliance.
