

WE ARE NOT PAWNS in your political game

**Dear Speaker Nancy Pelosi, Chairman David Obey, and
members of the Democratic Leadership:**

On April 13, 2007, a long-term, congressionally mandated scientific evaluation of abstinence-only programs found that they had no impact on teen sexual behavior. Yet, you increased funding for these programs.

It's time for our elected leaders to acknowledge that:

Youth have a **right** to complete and accurate sex education.

Youth deserve **respect** as full citizens of our country.

Congress has the **responsibility** to stop wasteful spending
on programs that **DON'T WORK!**

End funding for FAILED abstinence-only programs.
