MEMORANDUM FOR RECORD

SUBJECT: 15-6 Investigating Officer Report: CF killing of Local Nationals on 27 FEB 2006 (AO Strike Force)

1. Summary of events: On 27 February 2006, 2/B/2-502 ('Renegade 2') was tasked to conduct route security on [REDACTED] (AO Strike Force) in order to secure BN LOC's and Patrol Base [REDACTED] (PBGs). The Company Commander [REDACTED] issued the order to the 2/B platoon sergeant [REDACTED] on 27 FEB. The security mission on this route is one that 2/B conducts every three days for a 55-hour period. Prior to assuming RTE security, [REDACTED] received a Battle Handover brief from the unit he was relieving and then briefed his TL's on his tactical plan. Although he did not specifically cover the Rules of Engagement, the B/2-502 commander gave his entire company an updated ROE class on 23 FEB 06. Moreover, [REDACTED] had issued in-depth patrol briefs including ROE in the past for the same mission. Prior to every mission, he alluded to these briefs. Furthermore, all gunners involved were qualified on their assigned weapon system at the time of the incident.

At approximately 1430 hours on 27 February 2006, 2/B was in position to conduct its mission at the intersection of routes [REDACTED] and [REDACTED] (MB 25610 63810). SSG Hobbs arrayed his M1114 vehicles in positions where they could maximize observation with overlapping sectors of fire. Renegade vehicle number 2-3A, lead by [REDACTED], was positioned on the intersection of [REDACTED] and [REDACTED]. Renegade 2-3, commanded by [REDACTED] was 500 meters West of the Intersection on [REDACTED]. The remaining two vehicles were positioned North of the intersection on [REDACTED]. The intersection of [REDACTED] and [REDACTED] (approximately 50-100 meters South of and perpendicular to [REDACTED]) has historically been an area of intense AIF activity. On seven past occasions, 2-502 elements operating in the immediate area have taken enemy fire. Additionally, B/2-502 had found caches in the area containing AIF propaganda and insurgent TTPs about using civilians as cover when attacking U.S. forces.

At approximately 1505-1508 hours, [REDACTED] vehicle (Renegade [REDACTED]) received one round of RPG fire and a high volume of SAF from approximately 200 meters Southwest of [REDACTED]. [REDACTED] was unable to positively identify the shooter. However, he was able to see that the fire was coming from behind and around a house 100-200 meters to his Southwest (See Exhibit A). He reported the contact to [REDACTED] (Renegade 2-3) who immediately maneuvered his M1114 East on [REDACTED] to support [REDACTED] vehicle. [REDACTED] received 1 RPG before [REDACTED] arrived on scene, another as [REDACTED] was

en route, and a third once [REDACTED] arrived. The enemy small arms fire was constant. [REDACTED] maneuvered his vehicle to the left of [REDACTED] in a position where he could suppress the enemy fire. The exact moment that the two vehicles returned fire is unclear. However, it is clear that both [REDACTED] and [REDACTED] identified the direction and distance to the enemy and ordered their gunners to engage on that area to suppress enemy fire. [REDACTED] dismounted his vehicle and returned fire with his M4. Shortly after returning fire, [REDACTED] [REDACTED] [REDACTED] gunner—identified a dark colored van (See Exhibit B) parked where enemy fire was coming from. The van was parked on the South side of a house on or near [REDACTED]. Based on the position of the vehicle, and his elevation as the gunner, [REDACTED] was the only soldier who could see the vehicle at that time (See Exhibit C). [REDACTED] believed that the enemy fire was either coming from the van or immediately behind the van. Regardless, he concluded that the van was being used by the AIF as either a firing platform or cover. [REDACTED] informed [REDACTED] that he believed the van was the origin of the enemy SAF. [REDACTED] ordered [REDACTED] to fire on the van and kill the enemy; [REDACTED] obeyed this order. At roughly the same time, the van began driving East on [REDACTED] at a high speed. Once it began moving, both gunners and both TC's had visual contact with the van. [REDACTED] ([REDACTED] gunner) also opened fire on the van. According to interviews and statements, either [REDACTED] or [REDACTED] ordered [REDACTED] to fire. After firing on the van for approximately 2-10 seconds, the vehicle in question stopped and both gunners ceased fire. A few seconds later; however, the van continued to move, this time at a higher speed. The gunners, again ordered by [REDACTED], reinitiated fire on the van for another 2-10 seconds and disabled it at [REDACTED] (See Exhibit D). In total, the gunners fired roughly 50-100 rounds of 7.62 mm and 100-150 rounds of 5.56 mm (link) ammunition. At this point, the patrol shifted its focus toward evaluating the enemy situation and assessing battle damage.

[REDACTED] moved his vehicle 100 meters South to [REDACTED], which separated his element from the van. He dismounted his soldiers but the absence of a foot bridge prevented further movement toward the disabled van. Though they could see the van through the canal vegetation, visibility was not sufficient to conduct a battle damage assessment. Consequently, [REDACTED] notified his higher headquarters and requested aviation support to assist in the BDA. Attack Aviation arrived on scene at approximately 1520 hours and reported that a crowd of local nationals was gathering around the vehicle. LONGBOW attempted to disperse the crowd by firing an illumination flare. The D/2-502 commander ([REDACTED] was located at PBGS and dispatched an element, including the Battalion Commander and CSM, to move to the disabled vehicle and conduct BDA. Upon arriving, the foot patrol confirmed that one local national adult male and two children occupied the vehicle. All three had been killed in the exchange of fire. Moreover, there were no weapons or ammunition in the van. However, D/2-502 did find a RPG round at [REDACTED] the same location of the van when the patrol began taking fire. Following the BDA and procurement of the RPG round, 2/B/2-502 remained in its original position to complete its route security mission.

2. Findings

- a) Based on the BN SIR, interviews, sworn statements, and imagery, I do not believe that U.S. Soldiers involved in this situation violated the rules of engagement or escalation of force regulations. In the midst of an intense and fast-paced firefight, U.S. soldiers positively identified an enemy combatant vehicle to the best of their ability.
- b) Two M1114s from B/2-502 received enemy RPG and SAF at 1500-1510 hours on 27 FEB 2006 vic. [REDACTED] 2
- c) Renegade 2-3 and 2-3A, the two vehicles in question, initially returned fire in accordance with the Rules of Engagement and individual/team react to contact battle drills.

- 6
- d) At the outbreak of the firefight, there was a dark van parked at the origin of the enemy fire.
 - e) Given the situation, [REDACTED] positively identified the dark van as either an enemy firing platform or enemy cover to the best of his ability.
 - f) Under the orders of [REDACTED], [REDACTED] (M249 Gunner) and [REDACTED] (M240 B Gunner) opened fire on the van only after [REDACTED] positively identified it as enemy.
 - g) After engaged by U.S. forces, the van moved East at a high velocity, stopping once, until it was finally disabled.
 - h) All soldiers involved received a detailed and current ROE class from the company commander five days before the incident.
 - i) Based on the time of day and position of friendly vehicles, sunlight did not obstruct friendly vision of the enemy.
 - j) The area where the incident took place is a particularly volatile one where caches and anti U.S. propaganda had been found in the past. Certain pieces of AIF propaganda included insurgent TTPs such as using civilians as cover for attacks on CF.
 - k) Elements from B/2-502 involved in the incident responded with the necessary amount of force to deal with the situation.
 - l) After the firefight, D/2-502 found an RPG round at the disabled van's original position.

3. I recommend no punitive or judicial action in this case. In the future; however, this situation should be used as a case-study to help teach Strike soldiers of the importance ROE and the willingness of insurgents to use civilians to their advantage. I Also recommend CERP condolence payments to the family of the deceased if appropriate.

C. Summary of incident:

On 27 FEB 06, Renegade 2-3 [REDACTED] was securing [REDACTED] with four M1114s and twelve personnel, three per vehicle. He had been in position since 1430 that day. Renegade 2-3A's vehicle, commanded by [REDACTED] with an M249 manned by [REDACTED] is stationary at the intersection of [REDACTED] and [REDACTED]. Renegade 2-3's vehicle was roving, but at the time of the incident was located approx 500m west on [REDACTED]. Two more vehicles are north on [REDACTED]. One was stationary at the intersection of [REDACTED] and [REDACTED] and one was roving north of [REDACTED] and south of [REDACTED]. The vehicles had ASIP FM commo and could talk both to Renegade at Camp Striker as well as the Swamp, which was run by D CO.

T: Secure [REDACTED]

P: IOT maintain a secure LOC to PBGS.

B/2-502 units at the intersection of [REDACTED] and [REDACTED] have received SAF and RPG fire from the south, across [REDACTED], seven times in the past. They have been unable to PID in the past. Based on reports from LNs in the area over the last month, the LNs infiltrate by foot from the [REDACTED] and attack are forces across [REDACTED]. They are supported by an anti-coalition Zobai Sheik who lives in this area. We found a cache at [REDACTED] three weeks ago, 300m from the SAF/RPG location, consisting of IED making material and propaganda. One of the propaganda items found was an AIF pamphlet describing techniques for using the population as a shield.

At 1505, Renegade 2-3A's M1114 received one RPG round plus a high volume of SAF from an estimated four personnel approx 200m southwest on [REDACTED]. He was unable to PID the attackers' location through the tall reeds. He reported to [REDACTED] who was currently located 500 meters west on [REDACTED]. [REDACTED] moved his M1114 to 2-3A's location to support. Upon 2-3's arrival, at 1508, both vehicles received two more RPG rounds plus a significant volume of SAF from an estimated four personnel from the southwest (the same approximate location as they last received fire). They PID'd the origin of fire at grid [REDACTED] from a blue van moving west to east on [REDACTED]. [REDACTED] made the decision to engage the van. His gunner, [REDACTED], engaged with the M240, and 2-3A's gunner, [REDACTED], engaged with the M249. The van stopped upon engagement and both gunners ceased fire. After a few seconds, the vehicle began moving again at a high rate of speed. Both gunners re-engaged until it stopped again at [REDACTED]. The gunners used a total of 50 rounds from the M240 and 150 rounds from the M249 to stop the vehicle. Renegade 2-3A moved 100 meters south to the canal dismounted with two personnel so that he could observe the van through a break in the reeds. He saw that the van was stopped but could not confirm BDA, and there are no crossing points on the canal. He notified higher in order to get attack aviation and Dog 6 to confirm BDA. Longbow arrived on scene at 1520 and spotted a crowd moving towards the vehicle and attempted to disperse the crowd with a flare. Dog 6, currently running PB Swamp, sent an element to include Falcon 6 and Falcon 3 to confirm BDA. Upon arrival at the scene, they found that the BDA was one adult male KIA and 2 children KIA. A crowd had gathered around the vehicle. There were no signs of AIF and no weapons or ammunition in the van. Dog 6 found a RPG round at [REDACTED] the location of the van when the element first received RPG and SAF. Following confirmation, the Dog 6 element returned to the Swamp and Renegade 2-3's element remained on [REDACTED].

All four soldiers had received an ROE class from Renegade 6 on 22 February 06. All soldiers were qualified on their weapon systems.

- A. Racial: None
- B. Alcohol Involvement: None
- C. Last Deployment to OIF/OEF: [REDACTED] and [REDACTED] deployed with 2/101 and returned FEB 04. [REDACTED] and [REDACTED] deployed with 1st AD and returned JUL 04.
- D. Is Soldier on Rear "D"? No

6

7. Remarks:

[REDACTED] I believe that the soldiers acted within the ROE. They believed that they PID'd the shooting as coming from the van. There is no way to determine if the AIF used the van as cover, either firing from the van and stripping the evidence, or firing from behind the van. All soldiers recently received ROE training and have displayed sound judgment in the past.

1. [REDACTED] WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

On the 27th Feb 06 our squad along with weapons squad assumed motorhead patrols at 1430. I was the gunner on [REDACTED] vehicle located on the corner of [REDACTED] and [REDACTED]. I was overwatching to our South and [REDACTED] vehicle was 500 meters west of us on [REDACTED]. At approximately 1500 a RPG round landed 10m to the South of our vehicle. I immediately took cover inside of the humvee in front of me, to the South of our vehicle. I immediately took cover inside of the humvee. We continued scanning and looking for the shooter. At this time we took 2 more RPGs along with small arms fire from 100 meters [REDACTED] Southwest of my location. At this time [REDACTED] had moved the vehicle forward to obtain a better view of [REDACTED]. Also at this time I noticed [REDACTED] vehicle with [REDACTED] on the gun was behind us and firing with security. After the small arms stopped [REDACTED] spotted a vehicle moving at a high rate of speed away from us when we had received fire from [REDACTED] and I [REDACTED] engaged to kill the person in the blue van. The van did not stop but moved faster away. At this time [REDACTED] were told to engage the van to disable/stop it. We shot again and the van stopped. As soon as the van stopped we ceased fire and scanned the area across the canal for any more possible enemies. After a long time of no contact [REDACTED] dispatched a team to secure and observe the van for the dog element that was on its way from [REDACTED] Renegade unit to assess the Blue Van and surrounding area. I continued to secure the South and after the dog element left we resumed normal [REDACTED] patrols.

Around 1500 [REDACTED] and myself were located 500m west of [REDACTED] truck on [REDACTED] when we heard an explosion in the direction of [REDACTED] truck. A couple of seconds later [REDACTED] called over the net that he was receiving RPG fire and Small arms Fire. At that time [REDACTED] gave the go ahead for our truck to move to [REDACTED] location. Upon arriving at [REDACTED] location [REDACTED] moved our truck into a position to set up support by fire. A few seconds went by then we received 2 more rounds of RPG Fire. After the rounds were fired I [REDACTED] was able to locate the origin of fire on [REDACTED] 100m southwest of our position. At the spot where I saw the fire there was a dark color van that I thought it was coming from. I notified [REDACTED] and told him that I thought that [REDACTED] the fire was coming from the dark colored van located on [REDACTED]. [REDACTED] gave the go ahead to engage the van. At that time [REDACTED] gunner and myself [REDACTED] gunner opened up our weapons on the van. [REDACTED] had a

M249 (SAWS) and I had a M240B. After a few seconds of fire [REDACTED] and I ceased fire. The Van [REDACTED] the tried to speed away heading east on [REDACTED] RTE. Earnhardt, [REDACTED] and myself were told to reengage the Van by [REDACTED] to reengage the Van. I was unable to reengage at first due to my field of fire was blocked by [REDACTED] truck. My driver pulled up away from [REDACTED] truck to clear my field of fire, where I then reengaged the Van [REDACTED] until it stopped on [REDACTED]. When the Van stopped, I ceased fire. At that time our element was no longer taking any type of fire. [REDACTED] told [REDACTED] to move his truck down [REDACTED] towards [REDACTED] to get a better view to see if anyone was in the Van or if anyone had ran. [REDACTED] moved his truck into position but was unable to see due to the high reeds along the canal between [REDACTED] and [REDACTED] intersection. [REDACTED] then informed [REDACTED] that there was a cut in the reeds on [REDACTED] East just parallel to where the van had stopped. [REDACTED] gave the okay to [REDACTED] to move with a small element to the cut in the reeds. [REDACTED] called back on ICom and said he could not see anyone in the van, but the windows on the drivers and passengers doors were shattered and that it looked like it had wrecked on [REDACTED] where it had stopped. Fold [REDACTED] to hold in Told myself to relay to [REDACTED] to stay via I com, To stay in place and to keep any body from approaching the Van until Dog6 [REDACTED] could move an element to the Van's location. When I saw the van after more rounds of fire came in it was clear that the rounds were coming from the Van or with a few feet of the Van as if the AIF were using the Van as cover. When we were receiving fire it was clear to me the the van was part of the fight.
