AFZB-KB-CDR

MEMORANDUM THRU Staff Judge Advocate, 4th ID and MND-B, Camp Liberty, Iraq FOR Assistant Division Commander (Maneuver), 4th ID and MND-B, Camp Liberty, Iraq SUBJECT: Approval and ratification of AR 15-6 investigation #06-084, C/1-502 Escalation of Force, findings and recommendations

- 1. The undersigned has reviewed thoroughly the aforementioned investigation conducted by and approved by approve the findings and recommendations enclosed.
- 2. As a result of this incident, the undersigned ordered in FRAGO 129 (DAILY FRAGO) to 2/101 OPORD 05-138 (COUNTER-INSURGENCY OPERATIONS FOR OPERATION IRAQI FREEDOM ROTATION 05-07) dtd 202000CJAN2006 that all maneuver battalions inspect all fixed TCPs (IA, joint, and US) within their respective battlespace to ensure that they are IAW the MND-B TCP SOP. Specifically, the battalions looked at supplementing TCPs with adequate marking materials (cones, signage, etc.) and more robust search areas better segregated from avenues of approach. All battalions have completed inspections and are fixing deficiencies.

3. POC for this memorandum is the undersigned.

Commanding

is affirmed during humas!

(d) Are all of the respondent's requests and objections withich were denie			

At approximately 201305/AN06, while conducting a Joint TCP with IAs at the IA Commercely Checkpoint (vic MB elements from HQs PLT, C/1-502 IN engaged a vehicle attempting to run through the TCP resulting in the death of an Iraqi local national, Ahmed Ali Hussein al-Janabi. After taking sworn statements US personnel at the sight and reviewing evidence from the scene, this investigation holds that the US personnel acted in accordance with the ROE and conducted proper EOF given the situation. Furthermore, the US personnel that used the lethal force used the minimum amount of force required to protect US and Iraqi Soldiers on the ground while minimizing collateral damage. The course of events leading up to the incident is as follows.

At 1100 hours, are given the situation of the TCP. The EOF briefing included the Shout, Show, Warning Shot, Disable, and Lethal steps for engaging a threatening vehicle. The 9 man element moved dosmounted from FOB Lutifiyah to the IA CP. This was the first time that a C/1-502 IN element reinforced this IA CP. In the past, MITT1 conducted the CP checks at the location. C/1-502 IN's task was to assist IA Soldiers in the conduct of inspections, and to insure the general quality of the conduct of the CP.

The element arrived at the TCP at approximately 1120, and assigned the US personnel different positions at the TCP.

and assisted the IAs at the western end of the TCP while and assisted with searches on the eastern end where most of the traffic was entering the TCP.

positioned (Medic) and (M

At approximately 1305, a white four door hatch back coming off of Route from the north drove onto the dirt and around two vehicles waiting to be searched. Seaw the vehicle and motioned for it to stop. Due to the vehicles speed (25-30 MPH), quickly fired a warning shot. The vehicle did not respond, so the fired another warning shot as did approximately 3-4 warning shots were fired by the fired and before the fired at the front of the vehicle. When all of this failed to slow the vehicle, approximately 35 meters from where US and IA troops were searching vehicles. The US forces cautiously approached the vehicle with IAs. There was a 10 year old boy in the passenger seat who was not injured, and the driver was found dead beside the car. Custody of the boy was turned over to his uncle and the IAs took the body to the morgue at the Mahmudiyah Hospital.

Given the fact that cars were obviously parked waiting to be searched and the steps the US forces took to stop the vehicle, it is reasonable to assume that the driver knew the search area was there and how he should proceed. Also, the man is from the immediate area and would have known about the permanent TCP that was there for months. The fact that US Soldiers were clearly visible on the road searching vehicles also supports that the TCP was distinguishable from before the line of cars at the wait line. Also, given that the driver failed to slow down all the way up to the point lethal force was used, there exists the reasonable possibility that the man had hostile intent. At a minimum, it is likely the man was trying to bypass the TCP, posing physical danger to Soldiers conducting vehicle searches. Concerning the implementation of the EOF, the soldiers on the ground completed or attempted every step except for "Shout".

attempted the "Show" portion of the EOF. Shout photographic evidence shows that he probably missed. Finally, fired with lethal force from the smallest caliber weapon at the scene (M4), and used the minimal amount of force required to stop the vehicle.

#### SECTION V - RECOMMENDATIONS (para 3-11, AR 15-6)

In view of the above findings, the (investigating officer) (board) recommends:

The IA CP needs to have a sign in place marking were the search line begins. The line should clearly state that the driver is to stop and wait to be called forward. Though this sign was not in place at the time, the marking and conduct of the IA CP up to this point has been sufficient enough to prevent a similar incident from occuring in the past.

A set of spikes strips might have slowed the vehicle down, but warning shots and shots at the vehicle did not slow the driver, so the effectiveness of these tools is questionable in this specific situation. Regardless, all IA CPs should be either equipped with spike strips or have concerting wire constructed in the interior to help control the flow of traffic.

In the interest of the the safety of soldiers working the TCP, the search area on Should be moved west approximately 150-200 meters or the search area moved to ASR where a wait line can be established with more stand off. If the intent of the TCP is to interdict AIF traffic entering the sector along Route them the search area should remain on Route but be pushed further from Route Had the vehicle been a VBIED in this incident, the US and IA soldiers on the ground would have been in the kill radius of even a small artillery shell based blast. More stand off needs to be created IOT give soldiers more time to react and, if necessary, disable the vehicle further away from exposed dismounts.

20JAN06 Escalation of Force Incident

## Facts

Missidn to reinforce IA Commercely Checkpoint VIC nours in day and 2 hours at night

Purpose to teach and coach IA in proper vehicle search and to enforce rehicle checks were taking place

Nine W.S. Soldiers reinforced IA CP

J.S. presence at checkpoint before incident was 1hr and 40 minutes ime

Incident occurred approximately 201305JAN06

was NCOIC, (11C, OIF1 experience)

Soldier who fired shots: OIF2 experience, 11C.

Occuments of car: Ahmed Ali Hussien al-Janabi (KIA)

10 year old also in car (uninjured), turned over to an uncle. Dead body taken by IA to Muhumidiyah hospital

Medicine found in car atenolol made by Novaten

did not see 10 year old in the car

Driver was killed almost instantly

was selected for overwatch position based on OIF2 experience, marksmanship skills and level headed qualities
