1. I, 1LT [REDACTED], WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

I was traveling with my Platoon of 25 soldiers (including soldiers from ACO Logistics) 4 M114s, 1 M109 and 1 Buffalo, west on Route [REDACTED]. The Platoon halted to interrogate a suspected IED. While halted I received a radio transmission from (A11) that a vehicle had approached the convoy at a high rate of speed and shots were fired. I radioed my higher with a SITREP. I then dismounted and proceeded to the scene. 1 LN male appeared to be bleeding and after the medic checked him out it appeared that it was confirmed he was bleeding from glass particles from his windshield. I directed my PSC to give him a claim card and I took him to the hospital eventually. While about the time [REDACTED] my PSC gave the medic the claim card and a second vehicle a white Mercedes sped toward RT [REDACTED] from an intersecting Road at a high rate of speed. I heard the engine but did not have a visual on the vehicle. As I turned my head I heard yelling from multiple individuals and two sets of shots fired. On the first set of rounds was 1 or 2 [REDACTED] rounds. I saw the M240 gunner at the point he exposed in a [REDACTED] burst. When I saw the round impact the vehicle was less than 30M from A11's position I then used the radio, A12 to send a SITREP to higher. I then ordered two soldiers to stack against a wall and get a visual on the vehicle for possible IEDs or [REDACTED] when the two soldiers acknowledged the sight was clear I kept them in overwatch while the medic and 1 soldier for security moved to assess if there were any casualties. The medic confirmed the casualty was KIA from a gun shot to his head. I again radioed my higher with a SITREP.

B. STATEMENT (Continued)

after my SETREP after I had moved back to my vehicle I was radioed by A12 that he had "spotted a suspected IED box 150 yds forward from his position". I dismounted my AT4, who was in the vicinity to detain the LNs we wanted. He informed me that I'd had taken him away. I then ordered soldiers to link up with IED, danger zone to IED forward move to a safe standoff position. I ordered A11 and A12 to blow by it and secure the far side to avoid any LNs or coalition forces from driving into the suspected IED and to interrogate it. There was no way for my military to cut over to the way suspected IED side of the lane because the median was too high. The only safe turnaround point was 500 m to our east. Once the buffalo interrogated we confirmed the presence of 2 artillery rounds and an RC device. It is my assessment that it is possible, one or both of the LNs (the WIA and KIA) were trying to distract us or test our TTR. It is also possible the IED was placed while we were static dealing with the WIA and KIA. No effort was made to conceal the IED, it was placed in a previous IED cluster.

9. [REDACTED] WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

Q: What do you cover in your Patrol Brief?

A: Trip Ticket, 72 hour threat brief mission, route, Convoy location (diagram), Sweep formation (diagram), Action on confirmed IED react to IED (No damage to vehicles or injuries), react to IED (vehicle immobilized), react to IED vehicle damaged but able to move, task to maneuver vehicles (chase vehicles, CASEVAC/Recovery vehicles) ROE/escalation of force slide, weapons status slide (Red, Amber, green), Moment of silence. For ROE and escalation of force I refered to TFIC TALSEP which with states 100m or less use verbal and hand and arm signals to push people back 50-100m fire warning shot 20-30m fire a warning shot 30m or less fire R.I.C. stops

Q: What is the definition of a warning shot?

A: A warning shot is a shot used to get the attention of a driver who is approaching your convoy at a dangerous speed and has crossed into an area ^{where} ~~there~~ is danger close. This is based off the ROE.

Q: What traffic control measures did you use and when?

A: The formation was stopped for a long halt to interrogate a suspected IED. The point and trail vehicles were told to have there ~~be~~ ^{gunners} block of East and west bound traffic ~~only~~ later pointers hand and arm signals, slowing and if needed warning shots are used based on our TTPs and ROE/escalation of force
