600 yds

The screenshot displays a software interface for a Tactical Operation Center. At the top, there's a menu bar with 'File' and a window title 'Log Main - Remote Session'. Below this is a table with columns: Plate, St, Time, Car, Camera, Type, and Horlist Notes. The table contains two entries. The first entry has plate '8AM0718', state 'MD', time '11:13 7/26/2012', car '95CHL1and2', camera '95CHL1', type 'default', and notes 'POTENTIAL OUTSTD WARRANT M226139012856 2003 DODG'. The second entry has plate 'CE8893', state 'IL', time '10:39 7/26/2012', car '95CHL1and2', camera '95CHL1', type 'Stolen plate', and notes '#3 Stolen License Plate. P244918556IL10100Z120120529CE8893 IL2013MC'. To the left of the table, there's a magnified IR view of a car with license plate '8A0718'. Below that is a color photo of the same car. To the right of the table is a map showing a street grid with a red pin indicating a GPS location. The map includes labels for various streets like Powder Mill Rd, 29A, and 212. A scale bar at the bottom right indicates 600 yards. The Bing logo is visible in the bottom left corner of the map area.

- New Alarm appears at top
- Will remain red for several seconds
- Audible Alarm sounds
- Photo's and location change automatically to new alarm

Alarms

- Verify Tag Number is correct
- Verify State is correct
- Determine if alarm type and notes warrant notification to allied agency.
- All alarms should be immediately reported to agencies in vicinity of alarm with exception of Sex Offenders and Violent Gang and Terrorist File (VGTOF) alarms

Plate by Image

The interface shows a tactical operation center with a table of active cases. The first case is a stolen vehicle with plate HZC931 from South Carolina, reported at 13:04 on 7/26/2012. The second case is a wanted person with plate 2AR2554 from Maryland, reported at 12:41 on 7/26/2012. Below the table is a map of a residential area with streets like Powder Mill Rd and 29A. A magnified view of a license plate 'ZCD-93T' is shown, with an arrow pointing to it from the text 'Plate by Image'.

- Alarms alone, are not probable cause to stop a vehicle
- Advise agency that notification is for advisory purposes only and they should verify violation in NCIC prior to taking enforcement action.
- ONLY Y alarms will be displayed on the TOC, not all reads
- No action needed if actual plate does not match the alarm information (i.e. plate misread, wrong state)
- Notification of alarm should be completed via telephone for immediate response
- Notifications must be documented in the "TOC Alarm Notification" spreadsheet
- Spreadsheet located in J:\LPR\LPR LOG\TOC Alarm Notification.xls
