August 13, 2012

David Rocah, Esquire
ACLU of Maryland
3600 Clipper Mill Road Suite 350
Baltimore, MD 21211

Dear Mr. Rocah:

This responds to your Public Information Act request for “… records in your custody and control pertaining to automatic license plate readers (ALPRs). ALPRs are also sometimes referred to as Automatic Vehicle Identification, Car Plate Recognition or License Plate Recognition equipment and/or software…”

At present, the Office of the Sheriff does not use or deploy ALPR technology in our operations. As a result, there is no database of information or software related to ALPR use nor have we developed policies, practices and procedures for procuring and using APLR technology and for storing, accessing and sharing data obtained through ALPR technology.

Thank you for your correspondence. If you have any questions concerning this communication please call me at (301) 780-2774 or email at markspencerlaw@co.pg.md.us.

Very Truly Yours,

Mark K. Spencer
Inspector General
