SUBJECT: ALPR UPDATES AND WEEKLY REPORT

DATE: March 8, 2011
FILE REF:

Sir:

I respectfully report that the ALPR updates have been done and are currently up to date on our T.A.R.U. Server and 702 Vehicle.

During the time period of Monday February 28, 2011 to and including Sunday March 6, 2011 there were 7304 reads of which 277 were hits. During the previous time period of Monday February 21, 2011 to and including Sunday February 27, 2011 there were 3988 reads of which 162 were hits.

Please be informed that the ALPR system was not used during the following dates: February 21, February 25, February 26, February 27, March 28, March 5, and March 6.

The ALPR system has a total number of 867,191 reads of which 18,223 are hits (as of March 8, 2011).

Attached is a copy of the ALPR Read Statistics for the above mentioned dates.

Respectfully submitted,

SUBJECT: TARU ALPR Problems  
RE: Blackberry Server  

DATE: March 8, 2011  
FILE REF:  

Sir:

On Monday March 7th, 2011 undersigned attempted to do the weekly ALPR Updates and discovered problems with the connectivity to the Blackberry Server. As previously stated by myself and other Detectives in T.A.R.U., we do not have the proper system/hardware recommended by the manufacturer to do the updates. Because of this, we have to connect remotely to the Blackberry server in MIS. This has become very problematic due to MIS having to constantly reset the Blackberry server to have the ALPR updates get downloaded.

The undersigned called Chuck from GTBM (creator of InfoCop and ALPR) and notified him of the problems with the ALPR system. Chuck stated that a CJIS line is needed in TARU at 491 Irvington Avenue. With this line, there will be no problem doing the updates every Monday morning.

The updates were completed at 1700 by Detective Edwin Padilla after the Blackberry Server was reset seven times throughout the day.

Respectfully submitted,

SUBJECT:  TARU ALPR Problems
          RE: 702 Car

Sir:

On Tuesday, February 15, 2011 the undersigned attempted to do the weekly ALPR Updates and discovered problems with the connectivity in the 702 Car. The PAGIS program will not allow the updates to go through and will not read any plates.

The undersigned called Anthony from GTBM (creator of InfoCop and ALPR) and notified him of the problems with the ALPR system. Anthony stated that he will be contacting his boss and will be sending a representative to TARU either today (February 15, 2011) or tomorrow (February 16, 2011) to fix the problems with the connectivity.

Respectfully submitted,
TO: Joseph Senica Jr., Sergeant

SUBJECT: ALPR UPDATES AND WEEKLY REPORT  

DATE: February 15, 2011  
FILE REF:  

Sir:

I respectfully report that the ALPR updates have been done and are currently up to date on our T.A.R.U. Server. Unfortunately, due to technical problems with the ALPR system (no connectivity) in the 702 car, the updates could not be applied to the vehicle. A representative from GTBM (creator of InfoCop and ALPR) will be responding to TARU on February 16, 2011 to fix the hardware problem.

During the time period of Monday February 7, 2011 to and including Sunday February 13, 2011 there were 4,064 reads of which 154 were hits. During the previous time period of Monday January 31, 2011 to and including Sunday February 6, 2011 there were 0 reads.

Please be informed that the ALPR system was not used during the following dates: January 31, February 1, February 2, February 3, February 4, February 5, February 6, February 7, February 8, February 12, and February 13.

The ALPR system has a total number of 848,087 reads of which 17,485 are hits (as of February 15, 2011).

Attached is a copy of the ALPR Read Statistics for the above mentioned dates.

FROM: Detective Osbaldo Rosa FILE REF:
T.A.R.U. Technician
SUBJECT: A.L.P.R. UPDATES AND WEEKLY REPORT:

Sir:

I hereby respectfully submit that the A.L.P.R. update to the T.A.R.U. server have been completed along with the 702 vehicle A.L.P.R. system.

On the date of February 14, 2011 through February 20, 2011, the A.L.P.R. statistic report showed 4,855 reads with 191 hits. The A.L.P.R. statistic report also showed that the A.L.P.R. system was not used on the dates of February 14, 19 and the 20th.

The A.L.P.R. statistic report also showed for the date of February 21, 2011 through February 27, 2011, reads of 3,995 and hits of 162. It also shows that the A.L.P.R. system was not used on the dates of February 25, 26 and the 27th.

The A.L.P.R. Server currently has a total number of reads: 858,624 and hits: 17894. Attached to this report, you will find a copy of the A.L.P.R. Read Statistics report for the dates of February 14, 2011 through February 27, 2011.

Respectfully Submitted;

T.A.R.U. Technician

SUBJECT: ALPR UPDATES:

Sir:

I respectfully inform T.A.R.U. has been experiencing troubles updating the ALPR system. The troubles arise when our T.A.R.U. server would not connect via Radmin Viewer to The B.B. Server, software used to remotely connect to different servers. The solution used to be to call M.I.S. and have them reboot the B.B. Server, until the last couple of times. We have called them to reboot the Server and they do, but we still experiencing the troubles not being able to connect. I respectfully suggest for an I.T. Technician to look into this matter.

Respectfully Submitted;

SUBJECT: ALPR UPDATES AND WEEKLY REPORT

Sir:

I respectfully report that the ALPR updates have been done and are currently up to date on our T.A.R.U. Server. Unfortunately, due to technical problems with the ALPR system (no connectivity) in the 702 car, the updates could not be applied to the vehicle. A representative from GTBM (creator of InfoCop and ALPR) will be responding to TARU on February 16, 2011 to fix the hardware problem.

During the time period of Monday February 7, 2011 to and including Sunday February 13, 2011 there were 4,064 reads of which 154 were hits. During the previous time period of Monday January 31, 2011 to and including Sunday February 6, 2011 there were 0 reads.

Please be informed that the ALPR system was not used during the following dates: January 31, February 1, February 2, February 3, February 4, February 5, February 6, February 7, February 8, February 12, and February 13.

The ALPR system has a total number of 848,087 reads of which 17,485 are hits (as of February 15, 2011).

Attached is a copy of the ALPR Read Statistics for the above mentioned dates.

Respectfully submitted,
