Mr. Berger:

I am in receipt of your Freedom of Information request regarding Automatic License Plate Readers. I will provide you with a response to your request within twenty business days. Thank you.

Sincerely,

Anthony L. Tramaglini
Chief of Police
Mr. Daniel Berger,

Attached are all the documents relating to your FOIL request. I have redacted certain items because they reveal criminal investigative techniques and procedures, or if disclosed could endanger the life or safety of a person.

Anthony L. Tramaglini  
Chief of Police

This email is being sent to you due to your recent inquiry regarding the acquisition of a License Plate Reader (LPR).

DCJS has received a grant to distribute a limited number of LPR's throughout the State. These units are targeted to increase highway safety through enforcement (unregistered, unlicensed, uninsured, etc.). Discussions are currently underway as to where the units will be distributed to. If your department is still interested in obtaining one of these units, I would highly recommend sending me an email as soon as possible. The email should include at least the following:

* Agency Description: including the number of officers, whether there is a designated traffic enforcement unit, and whether the department is 24/7 coverage for the jurisdiction it covers.

* Equipment Compatibility: including whether the department currently has or will soon implement TraCs and if the department would have the resources to dedicate a laptop to be utilized on a daily basis with the LPR (laptops will not be provided by DCJS).

* Program Compatibility: including your department’s 2007 traffic safety statistics (ie. number and type of tickets issued) and what traffic safety initiatives your department regularly conducts.

* Geographical Considerations: including the extent of traffic (major roadways, colleges, sporting arenas, etc.) within your department’s jurisdictional coverage.

If there is anything additional that you can think of that would justify your department to receive the LPR equipment, include that as well. Please keep in mind that our office expects a large number of requests for a small number of available units. While I cannot make any distribution promises, pleading your case at least guarantees your office will receive consideration. There is no particular deadline to get back to me; however, time is of the essence and I am unaware of when the final determinations will be made. If you have any questions, feel free to give me a call.

Best of luck.

Dear Michele,

During a meeting I attended today with Mr. Patrick O Fox, (Field Operations Manager for ESLAG North America Law Enforcement Systems, 412 Clock Tower Commons, Brewster, NY. 10509), regarding License Plate Readers (LPR’s), it was brought to my attention that DCJS has received a grant to distribute a limited number of LPR’s throughout the State. The Village of Croton-on-Hudson Police Department would like to be considered as a recipient of one of these units through the grant funding.

The Croton Police Department consists of twenty-one officers who patrol an area of 5.2 square miles with a population of between 8,500 to 9,500 residents. The Croton Police Department provides full police service to our community twenty-four hours per day, seven days per week. The Village of Croton is located in Westchester County on the banks of the Hudson River approximately 28 miles north of New York City.

The department does not have a designated traffic enforcement unit at this time. Each patrol vehicle is equipped with Radar Units as well as various medical equipment. The department does participate in the Stop DWI program as well as aggressive driving enforcement and other various safety specific traffic enforcement details. When manpower permits officers are assigned to enforce these specific traffic enforcement details. On a daily basis the department participates in spot checking school bus routes to insure that motorists are complying with the vehicle and traffic laws when operating in the area of stopped school buses picking up and dropping off students. Approximately 1,400-traffic summonses were issued in the year 2007 for speeding, aggressive driving as well as various other moving violations.
The Croton Police Department is currently in the process of implementing a mobile solution for its motorized road patrol units. The department currently has laptop computers and printers for use in an automated ticketing system (TraCs). A communication issue, which has now been resolved, has hampered the implementation of this system and the deployment of the computers will take place as soon as the cellular carrier finishes the installation of a transmission facility within the Village. This is expected to be completed within a few months and will greatly expand the coverage within the Village. The installation of the computers is ongoing and currently one patrol vehicle is equipped with a second to be completed soon.

In closing I wish to thank you for considering the Village of Croton Police Department for this grant. If you have any questions or need further information please let me know.

Dear Chief Tramaglini:

The Division of Criminal Justice Services (DCJS), in partnership with the Governor's Traffic Safety Committee (GTSC), is beginning a License Plate Reader (LPR) distribution initiative to create safer roads throughout New York State. According to statistics provided by the New York State Department of Motor Vehicles (DMV), approximately 11.1 million people have driver’s licenses in the State during 2007. Currently, about 1.4 million of these licenses are suspended or revoked (aggravated unlicensed operation). According to statistics released by the American Association of Motor Vehicle Administrators (AAMVA), nearly 75% of these people disregard the law and continue to drive motor vehicles.

In 2006, a joint project was initiated which included DCJS, the New York State Police (NYSP), and the New York State DMV for the identification of suspended/revoked operators, suspended/revoked vehicle registrations, uninsured motor vehicles, and other motor vehicle related offenses – driving while intoxicated, motor vehicle theft, etc. The innovative strategy requires coordinated efforts among local, county and state enforcement agencies and utilizes LPR technology to assist with the identification of in-progress violations.

As part of the statewide initiative, DCJS will distribute a limited number of LPR units across the State and the Croton-on-Hudson Village Police Department has been identified as a potential recipient of one of these units. In order to be eligible to receive an LPR, we need to know your department is able to respond in the affirmative to the following questions.

- Is your agency interested in receiving an LPR for participation in the initiative?
- Is your agency actively involved in traffic enforcement?
- Does your agency provide 24/7 service to the community?
- Does your agency currently utilize TraCS?
- Does your agency have laptop equipment installed in patrol vehicles?
- Does your agency have personnel available to administer this award?
Any 'No' responses must include a brief description of the circumstances surrounding the situation.

If it is determined that your agency meets the above requirements, a Letter of Agreement (LoA) will be provided to you for review. Upon receipt of the signed agreement, arrangements will be made by DCJS for the distribution of the equipment on a date and at a time and location to be determined.

Please be aware that recipients of an LPR will be expected to produce quarterly standardized, substantiated statistical information on the effectiveness of the equipment for a minimum of two years following its installation. This information is essential to demonstrate the success of the LPR and evaluate outcomes to enhance the safety of our roads and for DCJS to meet the GTSC grant requirements.

If interested in participating in this initiative, please forward responses to the above six questions directly to the attention of Michele Mulloy at the following fax number: (518) 457-1186 or e-mail at michele.mulloy@dcjs.state.ny.us. To be considered, responses must be received by midnight on Monday, April 7, 2008.

If you have any questions regarding the above information, please contact Michele Mulloy of the DCJS Office of Program Development and Funding (OPDF) at (518) 485-0913. Thank you for your continued efforts to make New York the safest state in the nation.

Very truly yours,

Denise E. O'Donnell
