“Scope of Work for ALPR System”

The following criteria / expectations are those of the Austin Police Department Auto Theft Interdiction Unit as it pertains to the ALPR System and the vendor supporting the sales of the ALPR system:

- A four camera system providing observation/plate recognition on all four sides of the vehicle (Type of vehicle to be determined) in which the system is installed.
- A two camera “Mobile” system providing observation/plate recognition on two sides of the vehicle in which the system is installed.
- The ability to upload the following information from the ALPR System:
  1) State (TCIC) Listed Stolen Vehicles and vehicles of interest
  2) National (NCIC) Listed Stolen Vehicles and vehicles of interest
  3) Local listed stolen vehicles and vehicles of interest
- The ability to upload information to the MDC via a wireless network.
- The ability to upload information to the MDC via a thumb drive or portable drive component.
- The ability to update and/or add information into the ALPR System on the MDC’s after the initial upload.
- VA visual, as well as audible, notification of a “Hit” on any scanned license plate that has been entered into the database.
- A server for retention of information obtained by the system during deployment.
- The capability to produce “still images” from any scan of a license plate.
- The ability for Detectives and authorized Austin Police Department personnel to access information previously obtained by the system, via computers on the City network or on an active MDC.
- The ability to incorporate additional information into the system for the foreseeable expanded role the system will play within the Austin Police Department.
- The vendor will train installers about the install process at the City of Austin Wireless Shop.
- The vendor will train the users of the ALPR system in the use of the hardware and software.
- A 2 year extended warranty will be included in the vendor’s contract. After 2 year time period, further annual maintenance to cover all hardware and software is available at 13.5% of the capital purchase cost.
- The vendor will not charge an annual licensing fee for the ALPR system.
- The delivery of ALPR system will be within 8 weeks of placing the order with the vendor.
- The ALPR system will come with a one year warranty on all hardware and software, to include any upgrades undergone during that time.
