Ms. Goddard,

Re: GRAMA request; cell phone location records

We have received your faxed copy of your GRAMA request for cell phone location records with an itemized list of information you believe the sheriff's office can provide to you.

Copies of all records, policies, processes and procedures governing or instructing SLCO or its employees in connection with obtaining cell phone location records. The retention of such records, Location communication records, and the individual targeted in an investigation, identification of all cell phones and locations, “Digital Fences” of geographic area when a call comes from a specific area, Probable cause to obtain cell phone location, copies of Judicial decisions or rules on to obtain cell phone locations, the number of emergency requests which no advanced court order was obtained, hard copies of these records, and records of communication with cell phone companies regarding cell phone locations to include manuals, pricing, data access policies, invoices and any refusals from cell phone companies.

The Salt Lake County Sheriffs Office does not have the above listed records requested. No records exist.

Respectfully,

[Signature]
Lieutenant B. Dietrich A31  
Corrections Bureau Administrative Lieutenant
