MEMORANDUM OF OPINION

SUBJECT: Claim of [Redacted] (File # Tuz 33)

1. CLAIMANTS NAME AND ADDRESS: The claimant is [Redacted] (through his uncle [Redacted]) who lives in or near Tuz in the Salah Ad Din province in Iraq.

2. DATE AND PLACE THE INCIDENT OCCURRED GIVING RISE TO THE CLAIM: The incident occurred on 3 March 2004 in or near Tuz in the Salah Ad Din in eastern Iraq.

3. AMOUNT OF CLAIM AND DATE IT WAS FILED: The claim was filed on 23 October 2004 for $11,020.00 for wrongful death of his family and the destruction of his flock of sheep.

4. JURISDICTION AND THE ISSUE(S) RAISED: This request is being presented for consideration under the provisions of the Foreign Claims Act (FCA), 10 U.S.C. 2734; as implemented by Chapter 10, AR 27-20. The claim was timely filed within the two year statute of limitation. The damage occurred as stated below.

5. FACTS:
   a. The claimant is [Redacted] (through his uncle [Redacted]).
   b. On 3 March 2004, elements from the 1/14th IN Bn opened fire on his home located in Dibig village killing four of his family members, 32 of his sheep and injuring 40 others. The unit involved had just been attacked from the direction of the village. They conducted and in the direction that the fire came and opened fire on the owner of the house after he stepped out with an AK-47 in his hand. The owner claims that he came out to investigate the disturbance of his dogs barking who was concerned for his flock. A once time solation payment of $2500.00 was made to the claimant. The unit also states that it stayed in touch with the claimant and attempted to help as much as possible.
c. The claimant is asking for $11,020.00 for the wrongful death of his family and the loss of his sheep.

6. OPINION:

a. **PROPER JURISDICTION:** The Foreign Claims Act (FCA) is applicable outside the United States, its commonwealths, territories and possessions, including areas under the jurisdiction of the United States. The incident occurred in or near Tuz in the Salad Ad Din Province in eastern Iraq. Accordingly, the claim may be adjudicated under the FCA.

b. **PROPER CLAIMANT:** The FCA prescribes the substantive basis for settlement of claims of “inhabitants” of a foreign country against the United States for personal injury, death, or property damage caused by service members or civilian employees, or claims that arise incident to non-combat activities of the Armed Forces. The test for determining “inhabitant” status is whether the claimant dwells in and has assumed a definite place in the economic and social life of the foreign country. The claimant in this case lives in Tuz. Accordingly, the claimant is a proper claimant to seek compensation under the FCA.

   In cases of property damage such as this, the claim may be presented by the owner of the property or by a duly authorized agent or legal representative in the owner’s name. In this case, the claimant and his family were the owner of 32 sheep that were killed by the coalition forces.

   Therefore, the claimant has established himself as the proper claimant to seek compensation under the FCA.

   Furthermore, in cases of wrongful death, a claim may be presented by the executor or administrator of the deceased’s estate, or by any person determined to be legally or beneficially entitled. In this case, the claimant is the son and brother of the decedent, and therefore qualifies as “beneficially entitled”. Accordingly, the claimant has established himself as a proper claimant under the FCA to seek compensation for the wrongful death of the decedent.

   Likewise, in cases of personal injury, the claim may be presented by the injured person, his duly authorized agent, legal representative, or by any person determined to be legally or beneficially entitled. In this case, the claimant, Hasaan, is the injured person who would be eligible to receive compensation for personal injuries suffered.

c. **PROPER CLAIM:** A claim for death, personal injury, or loss of or damage to property may be allowed under the FCA if the damage alleged results from non-combat activity or a negligent or wrongful act or omission of soldiers or civilian employees of the U.S. Armed Forces. In this case, the claim is for the wrongful death of claimants’ mother, father and brother who were shot while sleeping. Accordingly, the claimant has presented a cognizable claim.
On report of information gathered, the actions of the coalition forces may have been justified since there is an indication that shots were being fired, but it also appears that the action may have been in error.

d. THE ISSUE & ANALYSIS: The issue presented is whether claimant may receive compensation for the death of his father, his mother, his brother and 32 sheep's. In this case, the claimant has lost his entire family and his heard of sheep that provide a means of income. In addition, the claimant suffered gun shot wounds himself. The claimant states that his family was sleeping when the shots were fired that killed his family. He claims that the family had only one AK-47 that the father carried outside after his wife was shot in the head. The coalition force may have been justified in shooting at another target where the claimant and his family would be collateral damage to that combat operation. However, the ROE require units to have positive identification of target before engaging. In this case, reports indicate that over one hundred rounds were fired that impacted around a flock of sheep and his sleeping family. Accordingly, it appears that the shooting, although not “wrongful”, was conducted “negligently”. It is therefore my opinion that there is sufficient evidence to justify compensation under the FCA.

7. RECOMMENDED ACTION: I recommend that claimant be approved in the amount claimed totaling $11,020.00.
