The results of the email sent out two weeks ago are as follows 503 emails sent and 464 have replied Some employees have retired, some are still on leave, and others were contractors who did not have email capability Of the 464 responses, 23 employees confirmed they personally observed aggressive treatment by interrogators or GTMO staff Not one of the 23 responders advised FBI personnel were involved in the mistreatment, it was all conducted by outside agencies

Have you designated a point of contact to review these positive contacts? I had each employee write a brief statement of what they observed The INSD has no knowledge as to what techniques DOD authorized for the legal interrogation process of detainees at GTMO This representative could review the positive responses and make a determination which techniques were authorized and identify those employees requiring a follow-up interview
