---------------------------	----------------------------

**Narrative:**  
 302 20020828 - [redacted] was interviewed at Camp Delta, Guantanamo Bay, Cuba. Present at the interview was Special Agent [redacted] (FBI) [redacted] Linguist [redacted] served as interpreter. [redacted] has been previously interviewed on several occasions. After being advised of the identity of the interviewing agents and the purpose of the interview, [redacted] provided the following information:

[redacted] requested that the above captioned interviewers re-interview him on this occasion. [redacted] was extremely cooperative during this interview and continually stated his goal was to cooperate and be truthful so that he may return home someday to his family.

[redacted] advised he had been truthful and forthcoming when he had been interviewed on previous occasions. [redacted] inquired if the interviewers had any knowledge as to if he would soon be released from Camp Delta and be able to return to his homeland [redacted]

[redacted] stated that one of the guards at Camp Delta recently removed his prayer cap from his head and threw it in the trash for no apparent reason. [redacted] now does not think it to be religiously proper to use this cap again.

[redacted] states he really did not know that much about [redacted]

[redacted] then requested to be seen by a Dentist as soon as possible. [redacted] stated he needed to have a filling replaced. According to [redacted] he lost a filling from the right side of his mouth after he was kicked in the mouth by an American soldier in Afghanistan. [redacted] states that after he had been captured by the Northern Alliance and turned over to American soldiers, he was then interviewed on several occasions by the United States (US) military. According to [redacted] immediately after his final interview he was being taken back to the holding facility when he tripped and fell to the ground. [redacted] hands were handcuffed behind him at the time. Before [redacted] had an opportunity to stand up, [redacted] states a US soldier kicked him violently in his jaw. [redacted] states he did nothing to provoke this assault. Immediately after he was kicked [redacted] felt a piece of metal in his mouth. [redacted] thinks the piece of metal was a filling from one of his teeth. [redacted] was advised the interviewing agents would notify the Dentist assigned to Camp Delta of [redacted] medical condition.

At this time the interview was terminated.
