Hello for GTMO,

Due the recent weather, Camp III's new completion date is 10/18/2002. Therefore, the next "Air Flow," i.e. -new detainees brought to GTMO from Afghanistan, is now projected for sometime within the 11/02 - 10/2002 time frame. There will be between 20 and 34 new detainees on the flight. We strongly suggested total isolation for as long as possible for these individuals to keep them away from the 'veterans' until all available information is obtained from them.
