(U//FOUO) This guide provides classification guidance for FISA/PAA/FAA. FISA governs the conduct of certain electronic surveillance activities within the United States and against U.S. persons, regardless of location, and requires surveillances be authorized by the United States Foreign Intelligence Surveillance Court (USFISC), or in certain limited circumstances, by the Attorney General. PAA was an interim version of the FISA modernization legislation and allowed the DNI and the Attorney General to jointly authorize the acquisition of foreign intelligence information concerning persons reasonably believed to be outside the United States. FAA is the permanent FISA modernization legislation and is authorized by the USFISC.

(TS//NF) FISA includes all NSA FISA (to include Business Records, Large Content & FAA) and FBI FISA (to include Pen Register Trap Trace).

(U//FOUO) The phrases, “seeks or obtains FISA authority” and “seeks or obtains PAA authority” used throughout this document include the fact that NSA collects/ processes/ analyzes/ retains/ produces and then disseminates foreign intelligence information and data.

(U//FOUO) Unless otherwise specified, classification guidance which concern NSA FISA activities apply to all forms of NSA FISA, including FAA.

(U//FOUO) Consult with the Office of General Counsel or the SID Office of Oversight and Compliance for guidance on when FISA or other special authorities are needed to conduct SIGINT activities.

(U//FOUO) Note: Timetable for FISA/PAA/FAA: FISA, 1978 – present; PAA and Continuation, August 2007 – July 2008; FAA, July 2008 – present.
