Please let me know if you have any objections/comments directly, but it sounds like easy progress to me.

Thanks,

HQ has kindly signed off on our placing equipment in the for specific limitations, if you’re interested. Please let me know when you’d like to come out and I’ll make sure we’ve got the aircraft available.

Thanks,

(U) I would like to get on calendar an internal OTD meeting about Airborne. I would just like to have a “initial” meeting to communicate the scope of this effort, which may help drive our other meetings.

Perhaps a quick ½ hour discussion would suffice.

I’m available all of next week and week after (except 06/24). If you let us know a date/time that would work, we’ll send out the invite to get it on calendar.

Just wanted to check with you prior to engaging anyone about this. Should we schedule a meeting about this since ______ and ______ was asking?

Perhaps a meeting to re-enforce that the same concepts are being used would alleviate concerns.

Just checking in. I am having a difficult time finding the bottom of my inbox so I apologize if you have answered the below. Do we have any forward progress?

To follow-up on our meeting from a few weeks ago, were you able to develop a proof of concept test and timeline for the [redacted] to meet? I would like to make sure this moves forward and we can implement a test scenario for them in the near future.

Classification: UNCLASSIFIED//LES-NOFORN

Hello,

has two urgent requests:

1.) has an urgent need for the field to check for a Dell Laptop with Inventory Number. Most likely, this laptop was sent to the field as a . If you have genuinely located it, please contact me with your ransom demands for verifying the laptop’s existence (send a picture of the service tag number to me, if you wish to engage in negotiations).

2.) Due to a recent misleading story in the AP, Congress and the public are under the assumption that the FBI operates a fleet of aircraft with the CSS capability. My understanding is that the technique was initially deployed back in but was rarely, if ever, used. I am reviewing for any aerial missions, but that
database may not be accurate. So from [redacted] onward, if you recall a CSS aerial mission occurring in your current or prior Field Office, please let me know. We have been asked for specific mission numbers.

Thank you very much for any assistance.
