Declassify On: 20401231

Here is a synopsis of what I have obtained so far. The caveat is that the airborne missions are not recorded in metrics. I also cannot locate any data in Sentinel.

Therefore, the data I have is based upon an urgent email request that was sent out to the field. There may be additional missions that can be reported in the future, when all the respond (the email was sent 06/08/2015). Also, some of the missions might go back as far as when had tried to start a nascent aerial capability. At that time, CSS gear was sent to had gear, but they sent it back for lack of interest/usage. The POC for that program reached out specifically to those offices in addition to the wide email I sent. All offices reported back with the same stats as the ones emailed to me. There may also be airborne missions that involved that are no longer in the tech program or retired, so I cannot say for certain that the mission numbers are 100% accurate. So far, we have five airborne missions reported.

Since this information is going to AD Yacone soon, I thought you should be kept in the immediate loop, but the attached document has not received approval for release yet from UC and A/SC.
I approve. Nice work, and team.

TRANSCRIP'TORY RECORD
I am still not certain where those stats came from for the DD?

I’m available the 10th and 11th, and morning of the 12th.

Thanks,
