Contact me on communicator if you have any questions.
A TTU/WITT staff meeting was held today to identify and prioritize work for the short-term. Below is a list of Priorities, which the group shall work towards fulfilling at a minimum, before [redacted] departure for his airborne training classes. The other working items are to be done as secondary priorities. There were a lot more of "other working items", but I just wanted to ensure you are aware of the higher priorities that the group shall work to fulfill in the near term.

Priorities:

- [redacted] and Development Efforts [redacted] and others shall work with [redacted] to develop statement of works, due end of this week for delivery.
- [redacted] shall coordinate OGC assessment of and coordinate (Tuesday) meeting with OTD AD Marcus and OGC [redacted] for an assessment of privacy concerns expressed by the AD. As of this writing, [redacted] has been briefed, [redacted] is coordinating Tuesday Meeting.
- [redacted] Currently obtaining justification information for contract paperwork
- [redacted] Currently working with [redacted] in correcting advertised bidding paperwork.
- [redacted] Operational Support - [redacted] shall assume duties for ops support upon Departure, and currently shall offer assistance/training (80%)
- [redacted] Airborne - [redacted] continue to coordinate classes for FBI FO as needed.
Other Working Items:
- Test and evaluate equipment of upcoming shipments of equipment
- Return of Loaned Equipment
- May require vendor intervention for modifications
- Attend testing 06/30-07/01/2010.
- Arrange TTU/WITT class to be held at Quantico.
- Arrange test training in future.
- Contract paperwork at CO, awaiting PO (large purchase order).
- Contact to inform upcoming briefing is go/no go.
- Provide TTU account status for personnel.
- Provide inventory list for pre deployment - Need to talk to UC to clarify requirements.
- Receive and evaluate battery solution for future requirements.
- Receive and evaluate for future operations support (DPU).
- ON-SITE - Support - Requested TTU for support personnel (temporary).

UNCLASSIFIED
NON-RECORD

Gentlemen--

AIRBORNE OPERATIONS
I'm the new SSA assigned to OTD Technical Tracking Unit WITT team. We are currently going through the process of drafting requisitions for equipment purchases for FY 2011. A question came up concerning those WITT that have as one of their missions Airborne Operations, i.e. conducting WITT operations from division assigned surveillance aircraft (fixed wing/rotary) in support of division cases. Can you guys answer the following questions:

1. Does your division currently have permanently installed in your aircraft?
2. Does your division intend in the future to permanently install equipment in your division aircraft?
3. If the answer to either/both of the above is "NO": Does your division support Airborne Operations by using your ground based equipment temporarily in the aircraft, then removing it once the assignment is completed?

I'm pretty sure there are no divisions who have permanently installed WITT gear in their division's aircraft, but need your answers anyways. Your answers will have a direct impact on the type/quantity of equipment we are attempting to purchase this FY.

TRAINING

Another thing we are examining here at TTU is the 2 week basic training course is providing to WITT team users. Can you please identify at least one recent attendee to this course, and provide me their name and contact info. I will personally be contacting these individuals to get their opinion/feedback of the training. I need this info soon, because and some of the WITT guys are meeting with company reps in two weeks, and the quality and relevancy of their training course will be addressed.

Thanks Guys.

I spoke with [REDACTED] today [REDACTED] sales), and asked that he arrange a demo/evaluation battery loaned to us for evaluation purposes only. They will get back to us if there is a spare we can evaluate. This way we can see exactly the modifications they made to the product (as it’s sold in different flavors from another vendor) to support [REDACTED] equipment, and if it something we could invest in the future.

This is no way will commit us to buy anything, but more of an engineering evaluation of the product to see if it meets our needs for transportation, operation, and other particulars...

[REDACTED]

Please permanently transfer [REDACTED] airborne kit) to cost code [REDACTED]. It will go out in fedex today.

As per your request, I am returning the kit which is for the most part not needed here in [REDACTED]. I have retained the [REDACTED] that were sent to us separately and not part of this kit. Please note that I have retained the [REDACTED] which we will need to deploy the [REDACTED]. Please do not forget that you took my [REDACTED] which you promised to replace. Also, we need one of the portable batteries from [REDACTED] as we have no way to deploy the airborne solution. Also note that the [REDACTED] in this kit is broken and you were going to replace it. I would also like to get another [REDACTED] for the [REDACTED]. This [REDACTED] we can swap out? This [REDACTED] is if I need to do an OTD request for any or all of this—please let me know.....Thanks.
