Subject: Social Networking and Cyber awareness training in McCone County

McCone County MT will be hosting Social Networking and Cyber awareness training in Circle next Wednesday, June 27th. The training is by the Department of Justice and Montana Highway Patrol and is open and free to anyone who would like to attend.

Please feel free to share the attached flyer with anyone you think might be interested.

My apologize; if you get this multiple times, trying to get the word out wide on multiple distribution lists for this training.
