MEMORANDUM FOR THE CHAIRMAN, INTELLIGENCE OVERSIGHT BOARD

THRU: Assistant to the Secretary of Defense (Intelligence Oversight)

SUBJECT: (U//FOUO) Report to the Intelligence Oversight Board on NSA Activities - INFORMATION MEMORANDUM

(U//FOUO) Except as previously reported to you or the President, or otherwise stated in the enclosure, we have no reason to believe that intelligence activities of the National Security Agency during the quarter ending 31 December 2010 were unlawful or contrary to Executive Order or Presidential Directive and thus should have been reported pursuant to Section 1.6(c) of Executive Order 12333, as amended.

(U//FOUO) The Inspector General and the General Counsel continue to exercise oversight of Agency activities by inspections, surveys, training, review of directives and guidelines, and advice and counsel. These activities and other data requested by the Board or members of the staff of the Assistant to the Secretary of Defense (Intelligence Oversight) are described in the enclosure.

GEORGE ELLARD Inspector General

MATTHEW G. OLSEN

General Counsel

(U//FOUO) I concur in the report of the Inspector General and the General Counsel and hereby make it our combined report.

This error occurred because (b)(1) The (b)(3)-P.L. 86-36 All collection was deleted and no reports were issued. (U//FOUO) an NSA analyst erroneously tasked an e-mail selector for a valid foreign intelligence target while the target was in the United States. The analyst discovered the error and detasked the e-mail selector. No reports were issued. (b) (3)-P.L. 86-36 (U//FOUO) a SIGINT analyst learned that a USP was inadvertently targeted. The e-mail selectors. were detasked on The collection has aged off the collection system, and no reports were issued. (Ú//FOUO) NSA analysts learned that a USP was inadvertently targeted. telephone selectors associated with the target were detasked, and the collection was marked All collection had been deleted as of (B) (1) and no reports were issued. (b) (3)-P.L. 86-36 (b) (3)-P.L. 86-36 (S//REL TO USA, FVEY) an NSA analyst discovered that collection on a valid foreign intelligence target had occurred while the target was in the United States from Traffic collected during the target's stay in the United States has been and will be purged. No reports were issued on the basis of the collection. (b) (3)-P.L. 86-36 (S//REL TO USA, FVEY) an NSA analyst discovered that telephone selectors for a valid foreign intelligence target remained tasked while the target was in the United States. The analyst had suspended collection against the target's selectors A second NSA analyst erroneously put the target's selectors back This was discovered immediately by the first analyst who again attempted to suspend the selectors it was discovered that one of the target's selectors had remained on tasking, and the selector was again suspended. No collection was found for either selector during the time the target was in the United States, and no reports were issued. (b) (1) 2. (U) Database Queries (b) (3)-P.L. 86-36 (S//REL TO USA, FVEY) On occasions, analysts performed overly broad or poorly constructed database queries that potentially targeted USPs. For example, these queries used which produced imprecise results. On bf those occasions, the queries returned results from the database. The query results were deleted, and no reports were issued. Procedural errors contributed to the following incidents.
