asked me to forward the attached draft EC from the Norfolk Division regarding the initiation of a full TEI on PETA. Could you please review it and provide input regarding whether you think there is enough for a full TEI. We are interested in doing a conference call with NF this week to discuss. Could you please indicate your availability for a call.

I don't have any additional comments.

I agree with your comment below. FYI, CTD Executive Staff is currently drafting a reply to PETA General Counsel, who complained that 2 FBI SA's mentioned during a speech that PETA funds ALF/ELF (see attached letter), based upon reading a report of the speech on a website. SAC-Chicago interviewed those agents, who denied making the remarks, and wrote a letter to the website requesting a retraction (see attached). I previously forwarded my comments to CTD Exec Staff. This Congressional testimony may cause additional and similar concern if not revised per your comment below. Thanks.

Towards the end of the document, it says: "Finally, it is commonly believed that ELF and ALF are funded by more mainstream, generally law-abiding groups, such as People for the Ethical Treatment of Animals and In Defense of Animals." Using the phrase "it is commonly believed" is very odd in this context. If evidence exists linking PETA and IDA to ELF/ALF, then the sentence should be rephrased accordingly. If such evidence does not exist or is weak, then PETA and IDA should not be mentioned in the sentence. Otherwise, the statement perjoratively associates the two groups with law breakers on the basis of "common beliefs."
Let me know if you need anything further.

Subject: Penn State University

UNCLASSIFIED  
NON-RECORD

Everyone,

I received a telephone call and a fax from Philadelphia Division, State College RA (SCOLRA) advising of the following information:

During the week of April 18 through 20, 2005 a spokesperson for PETA, Loring Harkness, will present at a lecture at the request of the Alliance for Animal Rights (AAR) at Penn State University. Harkness will lecture on April 18, 2005 and April 20, 2005. The AAR is a registered PSU Student Organization sanctioned and funded by the University. The AAR has in the recent past performed Legal Protest against the Zoia's Restaurant, Kentucky Fried Chicken as well as circuses.

Of interest, during the week of April 14 through April 17, 2005, the Ringling Brothers Circus will be at the Jordan Center in State College, Pennsylvania. On April 16, 2005, PSU will host the Little International Livestock Exhibition and the Penn State Dairy Exposition. These dates also coincide with WWAIL.

SCOLRA has notified the local and state law enforcement as well as PSU University Police. All involved have decided to make appropriate notifications to local farms and any identified possible targets; providing information to public relations officials at PSU, as well as other affected entities; and an increase in covert law enforcement activity in the area.

SCOLRA is aware that PETA is a legal organization exercising its first amendment rights and has articulated same to local law enforcement entities. SCOLRA will not conduct investigation into this gathering unless attendees engage in criminal activity.

UNCLASSIFIED

4/18/2005

To: 
Date: 8/20/03 3:30PM
Subject: Possible Protests over Elephants, FBI Tampa

I don't know if this rises to the level of the daily brief, but I wanted to pass it on for information:

FBI Tampa, called me today (8/20/2003) to tell me that Tampa is monitoring the arrival of some elephants from Swaziland (a small nation near South Africa). Swaziland is exporting 11 elephants to the United States. The elephants are being loaded onto a 747 jumbo jet and arriving in Tampa at 8:30 p.m. on 8/21. Four of the elephants will be off-loaded in Tampa, and the rest of the elephants (7) will continue on to San Diego, where they will be housed in the San Diego Zoo. The four in Tampa will be driven by police escort to the Lowry Park Zoo (LPZ) in Tampa. Extra security will be provided.

According to SA, some PETA/eco-terrorist types have been arrested recently at the LPZ for criminal trespassing. PETA is aware of the elephant import and is not pleased. Tampa is not aware of any threats, but they are taking extra security precautions with LPZ officials, local law enforcement, etc. The contact in Tampa is airport liaison SA mobile telephone number.

According to SA, FBI San Diego has a case on this matter, 296A-SD-65895, and has send Tampa a lead, which Tampa is covering. Again, Tampa has no intel the elephants' arrival in Tampa on 8/21 will attract any violent protest, but they are taking precautions nevertheless.

Let me know if you need more info. FYI. SJP
Tentatively, on 08/21/2003 at approx. 2030, eleven (11) African elephants from Swaziland, Africa will be imported and transported to the Lowry Park Zoo (4 elephants), and the San Diego Zoo Wild Animal Park (7 elephants). The elephants will be crated and flown via CargoLux cargo 747 to the Tampa International Airport where they will all clear Customs, Agriculture, and Fish and Wildlife requirements. Four will be off-loaded and transported to the Lowry Park Zoo. The aircraft will be refueled and continue on to San Diego, California, arriving at either March GlobalPort, March AFB, California (preferred), or San Diego Lindbergh International Airport, San Diego, California, and the remaining seven elephants transported to the Wild Animal Park, Escondido, California. Arrival dates and times continue to be fluid, and could change. It is known that PETA has informants in various zoos and other wildlife organizations.

Last week, there was an incident at the Lowry Park Zoo in which three PETA activists were arrested after they caused a ruckus at the zoo. They went into a building where they were not authorized access and started screaming "Born Free, Live Free!" They were arrested and charged with burglary but most likely, the charges will be reduced to trespassing. FIs revealed that several of the PETA protestors traveled from out of town. One of those arrested was actually employed by PETA as an "organizer" from Norfolk. There was also a minor disturbance at Lowry last Saturday.

Intell indicates that the PETA out of towners have left, however, TPD is taking the transport and security of the elephants very seriously. TPD will have a special response team at the zoo to deal with any civil disturbance issues, i.e. chaining self to fences, bicycle locking necks to stationary objects etc. There will be a TPD escort of the elephants from TIA to the zoo. If the plane lands on time at 2030, my best guess is a midnight convoy movement. The TIA police will also be stepping up security measures during this operation. TPD is a member of the JTF and is the POC for TPD. SA______airport liaison, will be on hand when they arrive. Yesterday, there was a meeting involving FBI, TPD and TIA POCs at TPD HQ, and we hashed out all the issues. We will continue to coordinate with San Diego regarding any new threats.

The SD zoo received a threatening call from an unknown caller who threatened to burn down the zoo and SD has also had some civil disturbance issues. Hopefully, all of our efforts will prevent elephants on the tarmac.

FYI:  I was speaking with an SA in Norfolk who is investigating the People for the Ethical Treatment of Animals' link to ALF/ELF.

I will draft an EC on this transaction and the link between the groups in question.
The Jackson Division continuously reviews news coverage for such matters. At best, we have seen a few incidents with PETA protesters over the past two years. However, there has been no crime problem noted - just isolated protests at local schools and most recently, a naked protestor.
Greetings All--

I listened to the Corey and Jay Show this morning and heard that the group called in and stated that the protest would not take place. Apparently, some of the parents got wind of the plan and were not very supportive of the protest. So, as of about 0830 this morning the protest is off according to www.coreyandjayshow.com/AudioDownloads.html. However, there is an audio clip on the Corey and Jay website that provides a bit of background into this situation.

This is the information I have confirmed as of today, regarding a planned PETA protest at Clear Channel's radio Station 105.1, KMJX FM, better known as "Magic 105" in Little Rock. The protest is apparently planned for 5:00 p.m., Friday, March 11, 2005, at the Clear Channel facility, located at 10800 Colonel Glenn Road, Little Rock, Arkansas. A copy of the
e-mail received by the Corey and Jay Show at KMJX from [e-mail address] sent on 3/8/2005 is as follows:

"Dear Supporter,

Thank you so very much for being involved in our ever-so-necessary cause. As you know, our Little Rock chapter will be protesting the Corey and Jay Show at Clear Channel Metroplex on Friday 11th at 5:00pm. Most of the 27 members signed up to protest are in junior high school and will need us to arrange to pick them up.

Parents will be told that their children are on a "field trip" and this is not to be strayed from. Veggie-Lasagna and Dasani water will be provided to those who attend.

Why protest Corey and Jay Show?

The Corey and Jay Show have become very popular in the Little Rock area since their introduction to the airwaves, their indecent topics ranging from animal cruelty to discussions of eating meat. Their program has gone too far and we will stand up and let our voices be heard! Corey and Jay Show, HERE WE COME!

To hear the opening battle cry of our war against Corey and Jay show, visit their own tacky website and see just how neanderthalic (sic) these imbasilis (sic) truly (sic) are!"

Apparently, some time in the past year or so, [a name] was a caller to the Corey and Jay Show, felt he was wronged, and now is encouraging a protest against the station. The Corey and Jay Show website apparently has recordings of those calls posted, and are the basis of [a reference to the show's website in his final sentence in the above e-mail]. [a name] is one of the Little Rock leaders, if not the leader, of Little Rock's PETA.

The Corey and Jay Show have become very popular in the Little Rock area since their introduction to the airwaves, their indecent topics ranging from animal cruelty to discussions of eating meat. Their program has gone too far and we will stand up and let our voices be heard! Corey and Jay Show, HERE WE COME!

To hear the opening battle cry of our war against Corey and Jay show, visit their own tacky website and see just how neanderthalic (sic) these imbasils (sic) truely (sic) are!"

4/15/2005
Apparently, some time in the past year or so, a caller to the Corey and Jay Show, felt he was ridiculed and now is encouraging a protest against the station. The Corey and Jay Show website apparently has recordings of those calls posted, and are the basis of reference to the show's website in his final sentence in the above e-mail. A is one of the Little Rock leaders, if not the leader, of Little Rock's PETA.
