EDITION OF NOV 77 IS OBSOLETE.
SECTION IV - FINDINGS (para 3-10, AR 15-6)

The (investigating officer) (board) having carefully considered the evidence, finds:

SEE ATTACHED MEMORANDUM

SECTION V - RECOMMENDATIONS (para 3-11, AR 15-6)

In view of the above findings, the (investigating officer) (board) recommends:

SEE ATTACHED MEMORANDUM
MEMORANDUM FOR Commander, Bravo Company, 2nd Battalion, 502nd Infantry,  
ATTN:  Taji, Iraq 09378

SUBJECT: Appointment of Investigating Officer

1. You are hereby appointed an Investigating Officer pursuant to conduct a  
Commands Inquiry, to investigate the circumstances surrounding the shooting and  
death of local national, involving Iraqi Army and B/20502 IN on 22 November 2005 during combat operations in Saab Al-Bor, Iraq.

2. In your investigation, all witness statements will be sworn and Privacy Act  
Statements taken. From the evidence, you will make specific findings into the  
circumstances behind the incident and the potential for criminal or administrative  
liability. You will also make recommendations for corrective action to prevent similar  
acts or incidents and for administrative and/or disciplinary action, if appropriate.

3. You may obtain advice and assistance from the Administrative Law Division, Office  
of the Staff Judge Advocate. Administrative support will be provided by CPT the Brigade Legal Office located at Taji, 242-6306.

4. Prior to interviewing any service member whom you suspect may have violated the  
UCMJ, you must provide an Article 31 rights warning. The Article 31 rights warning  
should be done using DA Form 3881. Please consult with your legal advisor for more  
information.

5. Coordinate and report to the Task Force Executive Officer upon receipt of this order  
for an initial briefing.

6. Submit your findings and recommendations, with continuation sheets, enclosures,  
and exhibits to the S1 Office upon completion. Point of contact for this memorandum is  
CPT at 242-6536.

LTC, AR  
Commanding
MEMORANDUM FOR
COMMANDER, 3RD BRIGADE COMBAT TEAM, 1ST ARMOR DIVISION

SUBJECT: AR 15-6, BCT No.: _____ (The circumstances of the shooting and death of local national, involving Iraqi Army and B/2-502 IN on 22 November 2005 during combat operations in Saab Al-Bor, Iraq).

1. Enclosed is the 15-6 investigation outlining the circumstances of the shooting and subsequent death of an Iraqi, during a joint Iraqi Army and B/2-502 IN ambush operation vicinity.

2. SUMMARY: The battalion has been working on the insurgent cell with LTC SDR of 1/2/1/9 IA, and THT published a DIIR naming several members of the cell, whose members included, and both of whom were from the town of . On the night of 21 November, LTC recorded a cell phone conversation (his third).

The battalion then coordinated with LTC to conduct the operation with U.S. supervision. CPT approved LTC plan and provided himself plus 1st section, 1st Platoon (18 soldiers) to overwatch and supervise the mission. 1LT the IA company MITT officer was also on hand to support the mission. As part of his mission brief, CPT warned LTC about detainee abuse. LTC assured CPT that neither he nor his soldiers would abuse the detainees.

At 0420, the unit departed the Alamo with three BMPs, a WAZ truck, a civilian vehicle, approximately 30 IA Soldiers, and the informant, followed by four M1114s with 18 U.S. Soldiers, 1LT and one interpreter. At grid just north of the intersection with RTE Blues, the convoy stopped and dismounted the Iraqi Soldiers with six U.S. Soldiers, the informant, and 1LT to establish the ambush. The remainder of the patrol moved north to the Iraqi TCP and staged there to support the operation. The IA positioned an OP at the intersection of Routes Islanders and Lincoln to act as early warning. At approximately 0730, the civilian vehicle driven by two Iraqi soldiers moved to the ambush site and staged as per the insurgent instructions.

At 0805, LTC relayed to CPT that a maroon Opel (the target vehicle) had passed the IA OP. The TCP vehicles moved and set a blocking position on the north end of RTE Islanders. At the ambush site, the

13470
maroon Opel pulled up and the occupants gave the password. With the
insurgents properly identified, the IA soldiers pulled the driver from the vehicle. The passenger jumped into the driver’s seat and attempted to escape. 1SG, the IA Company First Sergeant, drew his 9mm and fired two rounds into the leg to prevent him from escaping. IA Soldiers proceeded to move the injured national from the vehicle. SGT, the U.S. squad leader (Eagle First Responder qualified), conducted an initial assessment on the patient. He determined that the two gunshots were superficial and that the patient was stable. He assessed him as a “routine” casualty.

All elements with the four detainees withdrew from the ambush site at 0845 and arrived at the Alamo patrol base in Saba Al Boor at approximately 0900. As the patient was removed from the vehicle, it became clear that his condition had deteriorated. SGT, the senior company medic, reassessed the patient (AIF), and determined he was in near cardiac arrest with little to no pulse. The Soldiers moved the individual to the aid station where SGT began CPR. Renegade called Thunder X-Ray for MEDEVAC and evacuated Lonestar Dustoff 50 was wheels up at 220959NOV05L. The flight medic, SGT pronounced the AIF DOW at the evacuation site and his body was taken to the 10th CSH. SGT assessed his leg gunshot wounds were superficial and there were no signs of heavy bleeding. SGT found no further wounds or signs of injuries.

3. FACTS:

a) Was there a patrol brief given to the Iraqi Army and U.S. soldiers? Yes, a mission brief, along with a brief about the abuse of detainees was given by CPT before the patrol left the Alamo.

b) Were U.S. soldiers present to supervise and support the Iraqi Army patrol and ambush? Yes, a squad leader from 1st Platoon, his bravo team leader, and bravo team were located with the IA at the ambush site while CPT and the rest of 1st platoon’s 1st Section were located with the IA commander at the Thunder TCP.

c) Was the Iraqi Army 1SG justified in shooting the LN? Yes, the LN tried to flee the scene after IA soldiers tried to detain him because of evidence indicating he was trying to coordinate payments to an insurgent cell. This was explained to U.S. soldiers by the IA because they did not see the actual shooting because of their position in the hide site.

d) Was the LN provided adequate care by U.S. forces after he was shot and detained? Yes, a U.S. squad leader, SGT immediately left his hide site on the ambush line and went to the scene of the shooting to provide first aid. SGT Eagle First Responder qualified and assessed the wounded as routine. He was coherent and there was only a small amount of blood loss.

e) Was the LN evacuated for further treatment? Yes, the LN was brought to the Alamo after the area around the shooting was secured. The reason it took 30 minutes to leave was because of a potential VBIED threat. He was transported to the Alamo with the IA because their vehicles were closest to the scene.

1. Intelligence: For several days, my battalion had been working on the insurgents in the Alamo. THT had been involved and had published a DIRI naming several members of the cell. These members included a leader in the cell. On the night of 21 November, LTC Khaidar attended a briefing about the findings of an informant's conversation with the insurgent in the cell.

2. Planning: I allowed the idea to take the lead on this operation with U.S. supervision. Since the plan involved two IA soldiers in a civilian vehicle wearing civilian clothing, I ensured that the plan was within their allowed actions. I approved the plan and provided myself plus my 1st section, 1st Platoon (IA soldiers, led by LTC Khaidar) to conduct the operation. Twice before the operation, I warned the leaders about potential abuse and he assured me that neither his nor his soldiers would touch the detainees.

3. Initial Set: At 0420, we departed the Alamo with three BMPs, a WAZ, a civilian vehicle, approximately 20 IA soldiers, and the informant, followed by four U.S. M1114s with 18 U.S. soldiers, 11 interpreter, and one interpreter. We moved through the IA TCP (1) and traveled north on RTE Islanders. Just north of the intersection with RTE Blues, we stopped and dismounted the Iraqi diamonds plus six U.S. soldiers, the informant, and LTC Khaidar to cordon the area that was to be searched. The rest of us moved north to the Iraq TCP (1) and staged to support the operation. The IA also left an OP at the intersection of Islanders and Lincoln to act as early warning. At approximately 0730, the civilian vehicle driven by two IA soldiers and staged as per the insurgent's instructions.

4. Ambush: At 0805, LTC Khaidar informed me that the vehicle had passed the IA OP. We got in the vehicles and moved set a blocking position on the north of RTE Islanders, and then we moved to the ambush site (2), the maroon Opel pulled up and gave the password. At that point, the IA soldiers pulled off the driver's seat and jumped into the driver's seat and attempted to escape. The vehicle passed two rounds and then two rounds from the vehicle. The passengers jumped out of the vehicle. One soldier was hit in the head with a BM-21 grenade. The soldiers pulled him out of the vehicle by his arms. All insurgents were arrested twice by the IA in the process of being detained. The soldiers in overwatch moved in to control the area and to conduct an initial assessment of the situation.

5. Whirlwind/MEDEVAC: One of the key tasks in planning was to withdraw quickly as to not advertise the occurrence to other insurgents in the cell and potentially burn future operations. We left the ambush site at 0855 and arrived at the Alamo at 0900. My M1114s only had room for two detainees (all we planned for was two), so we had the IA carry the other two and after several hours of waiting about detainees about was in the best seat of his car, and then we went on the ways, where we saw no change in his condition. As we moved, my soldiers tried to fix up and prepare for non-standard ground MEDEVAC to Camp Talil. He lay down in the back of the Opel and was driven by two IA soldiers. We wanted him back alive and well so we could talk to him and get more information about the insurgent network. I did not want him to be standing by. When SGT* had a pulse and carried him back to the Alamo, he called the DUSTOFF (it was a DUSTOFF from the vehicle). He was in critical condition and was on life support. We made contact with SGT* and evacuated him to the Alamo.

6. Follow-up: Once LTC Khaidar was evacuated, we began to process the detainees and sort through the evidence. The detainees had no weapons or incriminating evidence except for cell phones and a book that contained other known insurgent numbers. While being transferred, the detainees were searched for weapons, but could not be admitted to the cell. An IEA made a call, the vehicle, and interrogating the detainee by Gunner's Gate did not admit to anything, but could not be kept a secret story between them. Additionally, the detainees were interrogated by the IA OP and the leader asked to bring the detainee to the Alamo to confirm the information. The informant also gave follow-up information to the THT about potential insurgent activities. LTC Khaidar was present to LTC Khaidar about any potential detainee abuse.

* SGT = Sergeant
8. 3 x BMP, 1 x WAZ, 2 x M114s move in
To secure the area and take charge of the
prisoners

I WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

AT 0400 on 22 Nov 2005 I went on an ambush with my SSG (1st platoon 2nd sqd). Our role was to provide security to set up a hasty blocking position on route Islanders, during the actual snatch/raid of the identified personnel. The Iraqi Army along with the informants would conduct the actual snatch mission after the informant called the individuals. Iraqi soldiers hid behind a beam in Islanders in a ambush position in case of a fire fight. During the meeting, and the individuals, the Iraqi SGR dressed in civis positively I.D. the individuals, the Iraqi SGR shot one individual in the leg after the person got spooked and tried to take off, once my sqd heard the shot we ran out on the road to block any cars from leaving/entering. SGR and I went to the actual site of the meeting and saw one person shot on the ground and one detained. This happened at about 0815. We also noticed a second vehicle in the AO; it was a BMW S series. They were detained due to the intel on a second vehicle that would escort the suspected insurgents. We loaded the wounded person in a vehicle and after searching the area, persons and cars conveyed back to the Alamo. We arrived at about 1045.

I. WITNESS

That on or around 22 Nov 05 0400 my team along with SGT [redacted] and the Iraqi army left the alamo to execute a ambush on Rte [redacted]. Around 0815 linkup was made between the I.A. and the suspected insurgents. We were 200 meters south of the linkup to execute a Blasting position. Due to the terrain I could not see the linkup fire and looked to find one man had been laid on the ground and Iraqi element was shooting in the air. SGT [redacted] and myself went to the linkup point and found one insurgent shot and one living on the ground. At this point we stopped an BMW series that was 300 meters south of the shooting site. We went down to the BMW and Detained two men. By now the wounded was being loaded up with the Detainees. We left for the alamo and arrived at 0900. As soon as we received the wounded from the Iraqi Army we evacuately took him to the Aid Station and tried to save his life. SGT [redacted] pronounced him Dead after working on him for approximately a half hour. Doc pronounced him Dead at 0933.
