There was 1-additional male that was seen north of the VBIED firing small arms fire and then proceeded North away from the VBIED detonation. Assumption is that the vehicle was actually designed to be a VCIED and that the KIA involved were actually the AIF responsible. No one of the locals questioned recognized the individuals that were KIA. VBIED caused minor damage to 1-1114 to CF (1-32) patrol that was driving through.			Status tracked		RG
