MEMORANDUM FOR Commander, 4th Brigade, 4th Infantry Division (Mechanized), FOB
Prosperity, Iraq 09348

SUBJECT: Army Regulation (AR) 15-6 Report of Investigation (Escalation of Force)

1. Purpose. The purpose of this memorandum is to provide the facts, findings, and recommendations regarding the escalation of force by 3D Platoon, A Company, 2-506 IN 120033FEB06 vicinity... (Redacted)

2. Summary of Incident. At approximately 120025FEB06, while moving east toward the intersection of... (Redacted), SSG... identifies four sedans and 2 dump trucks moving north on... (Redacted). Upon identification of the patrol, the dump trucks stop... movement and one of the sedans takes a different route from the other three. The patrol begins movement north along... (Redacted) and decides to set a hasty TCP and stop the single vehicle... (Redacted). Approaching the sedan from the rear, the driver of the sedan accelerated. SSG... signals to the vehicle with his spotlight. SSG... directs his driver to pull around the vehicle in order to get in front of the car to set the hasty TCP. As SSG... M1114 moves to the left of the vehicle, the driver of the sedan accelerates the sedan. SSG... directs his driver to accelerate to move in front of the vehicle and stop movement. Once the vehicles stop, SSG... and SGT... dismount to investigate the intention of the sedan's driver. As SSG... is moving toward the sedan, he uses hand and arm signals while SGT... kicks the driver’s door in order to direct the driver to get out of the vehicle (See Exhibits B, C, AA). The driver moves the vehicle forward in a gesture perceived by SSG... as an attempt to run over him (See Exhibits B, C, G). SGT... fires a warning shot (See Exhibit AA) and SSG... kicks the front light of the vehicle. The driver puts the vehicle in reverse and drives backwards. SGT... fires a shot into the tire to disable the vehicle prior to the vehicle ramming the second HMMWV (See Exhibit D). When the vehicle did not stop, I LT... and PFC... move out of the way thinking the vehicle is a VBED (See Exhibits B, J). The sedan strikes vehicle #2 and SPC... fires 2 bursts of .50 cal and PFC... fires M9 fire into the vehicle to kill the driver (See Exhibits F, G). Following the .50cal engagement, SSG... and SGT... inform the patrol they are injured. SGT... moves forward to provide assistance to casualties and position to engage suspected enemy shooters in the vehicle. After noticing movement in the vehicle, fires his M4 to kill the front seat passenger (See Exhibit E). As the patrol was rendering aid to SSG... and SGT... Dora IP officers arrived on the scene. The patrol relinquished responsibility for the killed and injured LNs to the Dora IP officers on scene and moves the casualties to the CSH (See Exhibit B). Approximately 50 minutes after the incident, SFC... arrives and assesses...

the situation. The two females had been taken to the hospital and the vehicle had no signs of weapons or explosives. Likewise, the area had been cleared of brass casings from the US engagements by the IPs (See Exhibit O, P).

a. The facts surrounding this investigation are based on the sworn statements and scaled reenactment (See Exhibit V) by the Soldiers of A/2-506 IN involved in the event (See Exhibits A-Q and AA). The times are reasonable estimates based on the statements of those involved.

(1) 112200FEB06 - [REDACTED] receives INTEL update from BN TOC
(2) 112230FEB06 - [REDACTED] briefs patrol on updated INTEL.
(3) 112300FEB06 - 3/A/2-506 IN departs as Patrol #619 with a scheduled time of return of 120500FEB06 (3 x M1114s - SSG[REDACTED] vehicle 1 TC, ILT[REDACTED] vehicle 2 TC, and SGT[REDACTED] vehicle 3 TC).
(4) 120025FEB06 - SSG[REDACTED] identifies 6 vehicles traveling north on [REDACTED] dump trucks and 4 sedans] (See Exhibit C).
(5) 120030FEB06 - SSG[REDACTED] recommends to ILT[REDACTED] to set up a hasty TCP to stop one of the four sedans traveling north on [REDACTED] - ILT[REDACTED] approves [REDACTED] request (See Exhibits B, C).
(6) 120032FEB06 - SSG[REDACTED] moves his M1114 in front of the sedan and stops the vehicle. SSG[REDACTED] and SGT[REDACTED] dismount vehicle and use hand and arm signals to have LNs dismount sedan (at this point, SSG[REDACTED] and SGT[REDACTED] do not know there are four occupants in the vehicle) (See Exhibits C, V). PFC[REDACTED] dismounts the vehicle to assist the interpreter opening his door. PFC[REDACTED] orients his weapon north (away from the sedan) to pull security.
(7) 120033FEB06 - ILT[REDACTED] stops his vehicle approximately 25 meters behind the sedan. All personnel minus SPC[REDACTED] (gunner) dismount the vehicle. SPC[REDACTED] orients his weapon at the sedan. SGT[REDACTED] stops his vehicles behind vehicle 2. All personnel minus PFC[REDACTED] (gunner) dismount the vehicle. PFC[REDACTED] orients his weapon south (away from the sedan) to pull security (See Exhibits B, E).
(8) 120034FEB06 - Driver of the sedan pulls the vehicle forward toward SSG[REDACTED] SGT[REDACTED] kicks the driver's door and subsequently fires a warning shot in the air and SSG[REDACTED] kicks the front, left tire. Driver stops vehicle and begins moving backward. SGT[REDACTED] moves toward SGT[REDACTED] and fires a shot to disable the vehicle (into the left, rear tire). Vehicle continues moving to the rear and simultaneously ILT[REDACTED] and PFC[REDACTED] move to cover based on determining the vehicle is a VBIED and SPC[REDACTED] fires approximately 10rds of .50 cal at the driver. PFC[REDACTED] fires his M9 at the vehicle driver (See Exhibits B, C, D, F, G).
(9) 120035FEB06 - SSG[REDACTED] and SGT[REDACTED] identify themselves as casualties and SGT[REDACTED] begins providing first aid. SGT[REDACTED] moves toward SSG[REDACTED] to provide assistance and identifies movement in the vehicle. He fires his M4 to kill the front passenger of the vehicle (See Exhibits D, E).
(10) 120036FEB06 - SGT[REDACTED] moves vehicle 2 to the rear to increase distance from suspected VBIED. SSG[REDACTED] and SGT[REDACTED] are treated and prepared for movement (See Exhibit B, E, V).

SUBJECT: Army Regulation (AR) 15-6 Report of Investigation (Escalation of Force)

(11) 120038FEB06 – SGT[redacted] and SGT[redacted] are loaded into vehicle 2. IP patrol arrives on scene and takes control of the sedan and four LN casualties. 3/A/2-506 IN departs for CSH (See Exhibit B).

(12) 120100FEB06 – 2-506 IN directs SFC[redacted] to move his patrol to the site and investigate the vehicle and casualties (See Exhibit O, P).

(13) 120120FEB06 – SFC[redacted] arrives at[redacted] and observes IP securing the site. The two females were not in the vehicle. The patrol searches the vehicle and does not find any weapons or explosives. The patrol finds one 5.56 casing after a search a 200m area around the vehicle. Following the search, the patrol departed for the CSH (See Exhibit O).

(14) 120400FEB06 – SFC[redacted] patrol returned to the site and observes the car still at the site with no IPs securing the area. The patrol moved the vehicle off the road (See Exhibit O).

a. EOF – 3/A/2-506 IN executed proper EOF based on the actions of the driver of the vehicle – The sporadic driving and suspected attempt the run over SSG[redacted] and subsequently ram vehicle #2 authorized the use of deadly force to protect US soldiers and equipment.

b. Assessment of the patrol vehicles and occupants prior to exiting vehicles – Although the timing of decisions was very rapid, there was one opportunity for the patrol to have prevented the misidentification of the vehicle as a VBIED. Had the members of the patrol remained inside of their vehicles immediately following the establishment of the rolling TCP, the patrol leader could have developed the situation further and would have had an opportunity to evaluate the number of and actions of the occupants in the vehicle. Remaining in the vehicle would have also allowed the interpreter to speak over a loudspeaker instead of relying on communication through verbal and hand and arms signals. Once the Soldiers dismounted they lost their stand-off posture and were forced to make rushed decisions on the ground with limited information about the occupants of the vehicle.

c. Situational Awareness Concerning VBIED threat – The Soldiers were not sufficiently briefed on the VBIED threat in the area and did not complete a rehearsal of reaction to VBIED (See Exhibit V). Based on previous VBIED events, the Soldiers could have improved their reactions based on familiarity with the dates and times of the most recent VBIEDs and the historical attacks of VBIEDs against coalition forces during patrols (See Exhibit W). Likewise, the Soldiers did not consider the number of occupants in the vehicle when determining the threat of a VBIED. Neither SSG[redacted] nor SGT[redacted] acknowledges recognizing more occupants than the driver of the vehicle prior to the engagement with small arms fire. The first acknowledgement that there were four occupants was by SPC[redacted] immediately prior to the .50cal engagement and just prior to the impact between the sedan and vehicle 2 (See Exhibit F, V). SPC[redacted] chose to engage the vehicle based on the escalation of force from SGT[redacted] and SGT[redacted]. When their actions did not stop the movement of the vehicle, SPC[redacted] directed the soldiers in the vicinity of the sedan to move from the area just prior to his engagement with the M2 (See Exhibit F).

d. Vehicle positioning to facilitate communication between vehicles at a traffic stop – The distance and line of sight communication between vehicle 1 and vehicle 2 prevented effective communication between LTL[redacted] and SSG[redacted] once SGT[redacted] escalated force to the use of deadly force by firing a warning shot. Based on the distribution of forces, each
Army Regulation (AR) 15-6 Report of Investigation (Escalation of Force)

Soldier independently chose to escalate force. There were no commands to fire or not to fire given. Due to the speed of the engagement, each Soldier involved made independent decisions to fire. The actions of the driver were the focus of all Soldiers' actions. Little information was passed from the leaders on the ground to others to improve situational awareness.

e. The engagement area facilitated injuries to SSG[^] and SGT[^] as a result of crew served and small arms fire into the vehicle. SSG[^] and SGT[^] were in the surface danger zone of the M2 fired by SPO[^]. The SDZ of the .50cal was violated by the array of vehicles and personnel during the engagement. Positioning the .50cal in the second vehicle and the vehicle directly to the rear of the sedan placed not only the lead vehicle in the SDZ, but also the dismounts approaching the vehicle. This resulted in injuries to both SSG[^] and SGT[^] from debris created by the .50cal and small arms fire. The angles of fire described by the Soldiers engaging the target supports the potential for fragmented ammunition and metal as the primary cause for injuries to SSG[^] and SGT[^] (See Exhibits V, Y).

f. Traffic control equipment on the vehicles was not sufficient to communicate with the sedan prior to the stop and once the rolling TCP was established. SSG[^]’s vehicle did not have an operational speaker or siren (See Exhibit V). The forms of communication used were hand and arm signals and voice. Likewise, the interpreter was not used during the engagement due to no speaker available and the inability to get out of the vehicle once stopped (See Exhibit C, H).

g. Due to the timing of the events, SPO[^] did not have an opportunity to request permission to fire and 1LT[^] was not in a position to give the command to fire or not to fire the M2. 1LT[^] dismounted the vehicle immediately upon stopping. As he stood toward the front of vehicle 2, he was forced to jump out of the way in order to protect himself and his FO (PFC[^]) from the suspected VBED (See Exhibit B, J). This action removed him from command and control of the situation as events rapidly progressed.

h. The first recollection that there were four occupants was from SPC[^] just prior to his engagement with the M2. SSG[^], SGT[^] (disabling fire), SGT[^] (killing fire directed at the front seat passenger) and PFC[^] (killing fire directed at the driver) did not identify there were four occupants until after the engagement. SGT[^] did not know there were four occupants until after he arrived at the CSH. SSG[^] and SGT[^] made the decision to engage based on the actions of the driver of the sedan. SGT[^] made the decision to fire based on the assumption the injuries to SSG[^] and SGT[^] were from enemy fire. The other members of the patrol either were not in a position to view the occupants of the sedan or were responsible for pulling security in a direction away from the sedan (See Exhibits C, D, E, F, V, Y).

i. The timing from the stop of the M1114s to the treatment of casualties is estimated to be 15-30 seconds.

5. Recommendations.

a. Review pre-patrol INTEL update to patrol leaders to ensure recent trends and threats are highlighted prior to SP.

b. Review traffic stop TTPs. Minimize the ability of the vehicle being stopped from moving while ensuring the vehicle sectors of fire maximize safety of dismounts in the event of EOF. Utilize interpreters to communicate with occupants prior to approaching the vehicle and directing with hand
AFYB-UA-EQ
SUBJECT: Army Regulation (AR) 15-6 Report of Investigation (Escalation of Force)

and arm signals. Equip all vehicles with spike strips to place in path of vehicle. Create an engagement area that enables the crew served weapons sectors of fire that minimize risk of injury to the dismounted soldiers and other vehicles in the event of an engagement. Ensure all personnel remain in vehicle to allow gunners/TCs to evaluate the occupants’ behavior prior exiting vehicles.

   c. Upgrade equipment on vehicles to include speakers, sirens, flashing lights, spike strips, and a spotlight. The ability to communicate while inside the vehicle will prevent Soldier exposure prior to gaining control of rapidly developing situations. This type of equipment will ensure patrol leaders are able to communicate with not only the occupants of vehicles, but also other Soldiers responding to the situation. Likewise, using disabling equipment such as spike strips after stopping the vehicle may prevent the driver of the stopped vehicle from attempting to drive away from the scene as the dismounted Soldiers approach the vehicle.

   d. Include reaction to VBIED rehearsal as part of the standard rehearsals for each patrol prior to departure into sector.

   e. Locate the families of the local nationals killed and injured to offer condolences.

1. WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

AT EXACTLY 0033 HRS ON 12 FEB 2006 (I KNEW IT WAS 0033 BECAUSE I GLANCED AT THE BFT) WE PROCEEDED TO PULL OVER A VEHICLE ON THE FIRST VEHICLE PULLED IN FRONT OF THE CAR AND MY VEHICLE (2ND HUMVEE) PULLED BEHIND THE SUSPECTED CAR ABOUT 25M. I WATCHED SSG AND SGT PROCEED TO DISMOUNT THEIR HUMVEE IN ORDER TO QUESTION THE OCCUPANTS. I SAW SSG NOTICING TO THE DRIVER, ALONG WITH SGT, FOR THEM TO STOP AND GET OUT. THE SUSPECTED VEHICLE THEN PROCEEDED TO JERK FORWARD TOWARDS SGT, THEN MOVE BACK SLIGHTLY, THEN JERK FORWARD AGAIN. SGT RICKED THE FRONT OF THE VEHICLE TO ATTEMPT TO GET IT TO STOP, AND THE CAR DID NOT SEEM TO RESPOND. HE THEN FIRED A WARNING SHOT AND THE CAR MOVED BACKWARDS TOWARDS ME AND MY HUMVEE. I HAD D耻G MY HUMVEE WHEN I NOTICED THE CAR ACTING UNUSUALLY SUSPICIOUS, AND AT THIS POINT, THE VEHICLE WAS BASICALLY BACKING UP STRAIGHT TOWARDS ME (AS IF TO HIT ME), I JUMPED OUT OF THE WAY AND THOUGHT TO MYSELF THAT THIS

**WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:**

On 12 June 20XX 3rd Squad was doing a Mounted Patrol during the Patrol. 3rd Plt was coming off heading to BOS on [Redacted] at that time I saw a vehicle traveling on [Redacted]. We proceeded to do a Roving TIP when we got up [Redacted] to the car [Redacted] to speed up then I had my driver to get in front of the car. At that time I saw [Redacted] and [Redacted] got out of the truck and did our check on the car. I told the driver to stop. At that time the driver [Redacted] to run me over. That's when [Redacted] fired a warning shot in the air. The car proceeded to continue forward. That was when [Redacted] and the front bumper then the driver started to move back towards the second truck and backed into the truck. That's when the gunner fired into the car. Then I heard [Redacted] calling for a medic. I felt [Redacted] on my leg and found out that I was hit. At that time [Redacted] started to preform first aid on my leg. When I was stable Pfc [Redacted] walked me to the second truck and we moved from [Redacted] (1)

**At 0030 3rd Plt was driving in convoy down. We then noticed a vehicle out after curve so we were going to stop it and see what was going on and why they were out after 2300. They continued to drive and speed up to not let us catch them. SSG truck the lead truck. Proceeded to go floor it past the car and block it off. Then the 2nd truck with the PL pulled up approximately 50 meters behind the car. SSG and SGT got out and told the occupants (4 passengers) to put their hands up and get out. The car then started to drive forward towards SSG, SSG shouted stop and the car was right upon him so he kicked the hood and backed up. SGT kicked the drivers door and fired a warning shot. The car then put into reverse; started backing up towards the 4th truck. Where LT was standing. LT had to dive out of the way to not get hit. The vehicle did not slow or show any signs to stop. When it was approximately 5 meters from hitting, the human fired one disabling shot at the driver side rear tire. The vehicle then hit the human. I heard gunfire and the soldier from truck #2 by yelling medic. I chased my aid bag and started to treat him. Then SGT yelled I'M HIT. So I went and evaluated him and did my treatment. We then loaded the know who all fired at the vehicle, except I just know SGT fired a warning shot in the air. I fired 2**

9. ____________, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

We were on patrol and came across a vehicle out after curfew. The lead
task made the call we were going to stop it and search it. The lead task
had 2 pursed the vehicle and cut it off in order to get it to stop.
The second truck pulled in behind the vehicle to block it in and my
truck was the 3rd truck as we pulled to a stop. We were getting out
and as we were stepping out we heard a volley of shots and then shots
from the .50cal. At this time __________ ran on the left side of
road screaming he was hit and __________ was yelling laid out in the
middle of the road in front of the car. I came around
and was moving to __________ to provide first aid and as I came around the
car I was watching it and the passenger started to jump around so I
escalated thinking they had shot our guys. At this time the medic
peeled __________ and I had to go move the 2nd truck off of
and back from the car which had slammed into it. Not knowing if it
was a VBIEO or what. After the casualties were treated, loaded them
into a HMMWV and transported them to the cashe leaving the FOB in
control of the site. END OF STATEMENT.

1. WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

After our trucks blocked the car, the car continued to move back and forth. 556 attempted to stop the vehicle with proper measures. After a failed attempt, 556 shot a warning shot in the air. The car still didn't stop, so Doc fired a disabling shot to one of the tires. The car still continued backwards (almost striking 1st) towards the second truck. That's when the 556 caliper, myself, and several others engaged the vehicle since all non-lethal proper stopping methods had failed. During the engagement, both 556 and 556 were wounded. As soon as I noticed 556 was wounded from the 2nd truck, I ran to his side to assist in medical aid with Doc. Doc also treated 556 while I remained with

I was trail truck and out of visual of the situation ahead. I was scaling outside the truck when it all started then finished. From in the truck I could hear yelling then a single shot. At that point we were not able to dismount while the vehicle was being engaged for hostile action towards our second truck from there I assessed the situation and made myself useful on the scene by adding the two U.S. W.I.A. and security on the vehicle. The vehicle was not cleared from the threat with our presence then PCB arrived and we evacuated.
