ON THE EARLY MORNING OF THE 1ST OF JUN 2006. WE ALREADY HAD A GOOD IDEA FOR WHAT WE NEEDED TO DO, BECAUSE WE ALREADY PLANNED AND REHEARSED FOR THIS RAID ABOUT A COUPLE OF WEEKS BEFORE. UNFORTUNATELY THE MISSION WAS CANCELED THAT TIME. THE DAY OF THE 31ST OF MAY 2006 SST **[REDACTED]** SGT **[REDACTED]** AND MYSELF WENT TO D CO COMPANY TO GO OVER REHEARSALS AGAIN FOR THE MISSION THAT NIGHT. AFTER OUR OPORD/REHEARSAL SSG **[REDACTED]** BRIEFED THE WHOLE SEC ON OUR ORP AND OUR MISSION. THE SNIPER SEC. LEFT THE FOB WITH THE ROE **[REDACTED]** AROUND 2030 THAT NIGHT TO GO ON MISSION OUR INFIL WENT GOOD. AND WE THEN PROCEED TO OUR ORP AT GRID **[REDACTED]**. WHEN WE GOT THERE WE FORMED A 360° AND STARTED TO SCAN. SST **[REDACTED]** MADE SURE I KNEW WHERE I HAD TO GO I ASSURED HIM I KNEW THE WAY BY AZMUTH AND DISTANCE FROM MY POSITION. FROM THERE MY TEAM MADE THERE WAY TO THE OP AT GRID **[REDACTED]** WE GOT INTO POSITION. MY TEAM AND I SCANNED SOUTH OF THE BUILDING SOON AFTER I HEARD A GUN SHOTS THEN A SECOND. THEN I SAW A ENEMY SITTING WITH HIS TORSO UP IN THE AIR. SEEING HE WAS NO LONGER A THREAT I CONTINUED TO SCAN I HEARD TWO MORE GUN SHOTS TO THE WEST THEY WERE NOT FIRED IN SEQUENCE. I WAS MONITORING D CO NET ON 85400 AND THEY SAID IT WAS FRIENDLY SNIPER FIRE COMING FROM VIPER 1

POSITION. AT THAT TIME I SAW AN IRAQI LOW CRAWLING AWAY ABOUT 40-50 M SOUTH OF MY POSITION. I FIRED A WARNING SHOOT, AND THEN ENGAGED ANOTHER SHOOT AIMED AT MID TORSO LEVEL AFTER THE IRAQI STARTED TO RUN THAT SHOOT MISSED. THE ENEMY GOT AWAY, SOON AFTER BLACK 6 (CAPT [REDACTED]) CAME OVER THE NET TELLING ALL VIPER POSITIONS TO GO COLD. VIPER 7 (SGT [REDACTED]) TOLD ME TO SEARCH FOR THE IRAQI I SHOOT AT AFTER ABOUT 15 MIN - 30 MIN OF SEARCHING I COULD NOT FIND A BODY, AT THAT TIME VIPER 2 PULLED OFF OBJ. OUR ROE WAS TO FIRE A WARNING SHOOT THEN SHOOT TO ~~LOCATED~~ INTURE THEN SHOOT TO KILL.

9. I, SPC [REDACTED], WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

I as a member of a sniper team with 1-67 AR received a frago on a raid that was to take place two days later in mid March. The raid was to hit a high value target who made ERP's. It is suspected that this man made the bomb that killed two of my own companies soldiers. After the frago the team leaders and SSG [REDACTED] went to an op order with Delta company. After the op order was finished, all the snipers who were going out on this mission were given a briefing by SSG [REDACTED] and the team leaders, that covered the ROE, Threat level from the target and what each team would be doing. We then had several verbal walk throughs of the mission. Just prior to moving out on the raid the mission was cancelled, but we were told it will probably happen later.

We had several missions between then and May 30th when we received a frago that the mission was on again for the night of May 31-June 1. SSG [REDACTED] and the team leaders again went to a op-order at Delta company. When the team leaders came back they went over the mission, ROE, Threat level, and other details with us and we had several verbal walk throughs before setting the packing lists.

The night of the 31st we were ~~there~~ transported to our drop off site by the Scouts. The drop off was approximately

one click south of the objective house. ~~where we~~ We moved to our ORP in a file with SSG [REDACTED] in the lead followed by his ~~shooter~~ the team 1 with my ~~team~~ ORP we Ghillied up and began to observe the target area. Our ROE at the ORP was to hold fire and just observe unless we were under an immediate threat. At approximately 0130 on the morning of June 1st Delta company was ready to move on to the objective and my team was the first to move out of the ORP. Sgt. [REDACTED] called moved toward our position and I followed 5 meters behind. We moved about 90 meters until we came to the dirt road that was my primary sector of fire. I dropped my ~~rocket~~ and placed my M24 on top. I then got behind my M24 and began scanning the area.

My primary sector of fire was to watch the avenue of approach for Delta companies assaulting elements until they got there. My ROE was to shot a warning shot first then to shot to wound/kill depending on the threat made by anyone who was leaving the buildings. I was not to engage anyone in any building, on a roof or running between buildings unless I felt a direct threat.

9. STATEMENT (Continued)

I heard one gunshot and was told by my team leader that SSG [REDACTED] had fired a warning shot. When the Brachliff carrying the assaulting element turned on to the road and into my field of view I moved to my secondary sector of fire which was the area between us and team 3. When I settled behind my M24 again I saw a man running from one of the houses away from team 3. I did not engage him since he was between me and team 3 from my angle. I watched as SSG [REDACTED] shoot him because he had an angle that would not jeopardize us. I continued scanning with both the M24 and my PVS14s. I heard 2 shots during this time but did not find out what they were until later. I spotted a person leaving away from the house with my PVS14s and went back to my M24 but could not see him due to lack of illumination. I directed my spotter on to him and he was able to fire a warning shot then fired and missed. We scanned our areas until the assaulting elements moved beyond our area then my spotter and I searched the area for the man who was crawling until Cpt [REDACTED] told us to head back to our rally point with the scouts.

9. [REDACTED], WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

I was the Battalion S2 during the time of target development which led to the raid against the house of [REDACTED] on 01 JUN at approximately 0200. The first time I heard about [REDACTED] was in a SPOT report which detailed him placing an IED on RTE [REDACTED]. After further target development of [REDACTED] there are now a total of 5 draft information intelligence reports (DIIR) and 4 SPOT reports from three different sources. Several of the reports detail him emplacing IEDs along RTE [REDACTED] targeting coalition patrols. These reports also tie him to [REDACTED] and [REDACTED] (all suspected EFP cell members). I monitored the house with ISR assets (UAV, THT) for almost one month. During this time, pictures were taken of the house which showed two cars which the UAV operator, CAS, and myself said looked to be the same type of white toyota and black BMW as described in DIIRs. Two Tactical Human Intelligence Teams (THT), THT 809 and THT 351, had sources reporting on the activities and whereabouts of [REDACTED]. THT 809 reported that a source said [REDACTED] was home on 20 MAY. THT 351 reported that a source saw [REDACTED] in Al-Husaniyah on 29 May. I believed we had enough evidence to prosecute [REDACTED]. We decided that the criteria for action on the house would be either human intelligence reporting him at his home or visual confirmation of the presence of the target vehicles. On the night of 30-31 May, Close Air Support observed a White Toyota and Black BMW and a large gathering of people at the target house. We decided to wait though because the following morning of 01 JUN, we planned a positive identification in the town of Al-Husaniyah. It was decided that after the positive identification and an attempt to get [REDACTED] at an easier location, visual confirmation of the presence of the suspected vehicles at the target house would trigger the operation against Waled's house. [REDACTED] was not at the second location in Al-Husaniyah during the positive identification mission the morning of 01 JUN. The evening of 01 JUN, close air support reported that a Black BMW was at Waled's home so the operation began.

SUSC552L6
SUSC552L6

I rode with the Tactical Psychological Operations Team (TPT) behind Dog 6. We went into the town of Musayyib and picked up some Iraqi Policeman for the mission. We then linked up with the main effort and followed them to the objective. At the objective, I waited with the vehicle, the THT source, and a member of the TPT as the main effort searched the target house. I heard 3-5 gun shots but am unable to determine the exact number or type of weapon used. After about 30 minutes, THT 351 and myself drove to link up with Dog 7. We drove with him to the objective. At this time, I pulled the TPT vehicle to the entrance to the driveway. About 15-20 men were lined up in front of the vehicle and THT asked the source to identify the detainees. He pointed out one detainee, who he said was linked to [REDACTED]. This detainee then pointed out another man who he said works with Waled to emplace IEDs. At this point, the injured detainee was shown to the source who did not recognize him. After this, I looked around the house at the vehicles but did not see the target vehicle. We are currently questioning the detainees, one of which will most likely be sent up for being identified as working with Waled on IEDs.

In the lead up to the operation, I gave ongoing updates when I recieved new information such as the location of [REDACTED] or the UAV collection on the target house. The area we targeted the night of 01 JUN had little coalition presence so there was a bit of uncertainty. The Iraqi police are planning an operation in the area to target several dozen known insurgents, some, such as [REDACTED] who are high on the BN target list. My understanding of the target for the operation on 01 JUN was that it was a family compound where [REDACTED] and possibly other members of the EFP cell would stay periodically. The reporting we had on the vehicles seen at the compound as well as the size of the compound indicated the possibility of a larger cell presence than only Waled. The enemy situation was either a family compound providing safe haven to an EFP cell member, or multiple cell members who would likely fight back rather than be detained. The exact enemy situation was unknown though.

In summary, we were patient with targeting [REDACTED]. We waited until we had multiple reports from multiple sources. We waited to positively identify a second location where it would be easier to seize the objective. The size of the housing compound and the isolated location required a larger than usual number of troops to conduct a effective cordon and clear the area.
