On the evening of 05 Sept. 2005, the following personal piece of my 1st was driven by the driver, Sept. 05, 9:17 PM and the passenger in the back seat of the truck was a woman. The truck was on the road stopping traffic, from the event at this time 1 cars were pulled off the side of the road in front of us about 75 ft. in front of us a white pickup truck attempted to speed by. The woman was standing on the road in front of us that was still did not slow down. The truck was engaged on the side while stashing into the truck and the truck stopped. About 15 minutes of the time the truck was locked and left the area. The woman jumped off the truck and walked to the left of an intersection and then got out and started for help. She was followed by the truck. From the woman 9 and swept the man and woman off the road and chased her off the road. I then pulled my vehicle up to the intersection. The woman asked for the way to land him on the road.

While sitting at the intersection, from the left of our approach to 2005 white maneuvers was approaching our left of the way and we asked the woman to stop. The car did not stop. The woman walked away 40 ft. to the left of our truck and turned around and the car did not stop. At this time the car dangerously close 2005 to 35 miles. With speeding, the woman was engaged on the car and it stopped. As the result the car was stopped.
At approximately 0330 on September 5, 2004, I was in a vehicle approaching the cordoned area for possible IED. I was riding directly behind the TC, SSG [redacted], the TC, MSG [redacted] was the driver, SPC [redacted] was the gunner and MSG [redacted] was riding behind the driver. I had moved off of MSR 1 to an auxiliary road to prevent traffic from reaching the cordoned area. A vehicle pulled up approaching the cordoned area at a very high rate of speed. After 4 warning shots from the SPC, [redacted], he fired a 6 round burst from the [redacted]. It appeared he struck the ground and the body of the vehicle, which came to a temporary halt. The sole occupant of the vehicle climbed and indicated he was bleeding slightly from his left side, the medic was called. He fired the gun. In order to avoid better fields of fire for myself, I ordered one of the lead vehicles to fire 3 warning shots. I turned back that direction.
fire a 6-9 round burst from an [obscured]. It appeared the rounds struck the ground, the front grill, the driver side headlight, and the windshield. After the incident [obscured] and myself moved to a small brick wall closer to the vehicle in order to observe the occupant. [obscured] observed through his escape hatch that the occupant of the white Mercedes-Benz was not moving. We then called forward the medic, [obscured], and myself moved to the far side of the vehicle to provide security. The medic made a quick assessment that the car was dead. [obscured] and myself then moved back to the [obscured].

D. WANTED TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

SGT [redacted] was sitting in Vehicle A-17, behind the Driver when we all entered the area for IED's (Grid [redacted]), In front of our location with the about 10mms into checking the area. I heard warning shots followed by more what I thought at the time wasn't a warning shot. About 10mms later SFC [redacted] said "Medic we need you to check out a guy who was injured in a shooting. I jumped out of the vehicle and opened the cargo hatch, pulled out my Medical bag. I then started running to the location with SFC [redacted] of the injured man. The man was standing by the passenger's side of Vehicle A-17. I met SFC [redacted] and still with SFC [redacted] asked him where is the vehicle the injured man was in. The injur...

SFC [redacted] got a card from SFC [redacted]. SFC [redacted] started filling out statement help Card for Injured man. When all of a sudden SGT [redacted] yelled 'Stop' and he started to raise his weapon. I then heard SPC [redacted] yell 'Stop' with his hand up. I was now standing at the rear of the vehicle A22. I then looked at the car which was white in color and coming towards us at a high rate of speed, the Engine revved, SGT [redacted] shot a warning shot and the vehicle was still moving towards us at a high rate of speed within 100m and closing in on us, still at a high rate of speed. SFC [redacted] started firing warning shot in the ground in front of the white BMW, which was within 50m and still moving fast at a high rate of speed. SFC [redacted] still moving towards us at a high rate of speed. SPC [redacted] started firing again the round hit the ground the front of the white BMW and one round in the windshield. Another round was also hit in the driver's side headlight and grill area. The vehicle then rolled to a stop. Danger close to us, within 25m. Two soldiers from 10BSF and Two from ACO 108519 checked to see if the area was secure. Behind the white BMW I put my BSF Gloves on while waiting for rear security. I then ran up to the car (white BMW) and observe one round in the windshield. I then observed a wounded man with a large amount of blood on his mouth, neck and chest area. I checked for pulse on the left and found nothing. I then opened the door and shot the white BMW. I then looked for breathing and checked for a pulse again.
STATEMENT OF 5GT [redacted], TAKEN AT AC [redacted] DATED 26 Sept 25

9. STATEMENT (Continued)

Their was two more beats and then like a weak beat then nothing at all. I was feeling the carotid artery and his chest. I then pulled the man out of the car halfway to see what kind of an airway he had hoping to do an advanced airway intubation tube. When I looked there was a large hole where the chin and neck was the mandible was split in half, I open the mouth to look further inside the throat area and I could see brain matter at the base of the head inside the mouth. I then made the decision to call the man in the white BMW dead at BMW and told the security element the man is dead. The only person on the security element, I can remember was [redacted]. I then told [redacted] as I went back to his location. The man is dead. He then told [redacted] and I went back to my vehicle to do security for the IED that was found.
